*Mangajin* is a made-up word combining *manga* ("comics/cartoons") and *jin* ("person/people"). It sounds almost like the English word "magazine" as rendered in Japanese—*magajin*. All of the Japanese manga in *Mangajin* were created in Japan, by Japanese cartoonists, for Japanese readers.

## Publisher's Note

Please note that this issue of *Mangajin* has grown to 104 pages (actually 112 pages in the US edition, which includes our catalog section). This is a 30% increase over the early issues which stayed at 80 pages through No. 18. Most of the extra pages were added to accommodate growth in ad content, but we were curious about how the other parts of the magazine had fared, so we pulled out a copy of No. 1 and compared the contents with No. 39. Here are the results:

	No. 1	No. 39
Manga pages	44	47 ½
Feature & misc.	30 ½	30
Ad pages	5 ½	26 ½

All of our reader surveys indicate that people consider the advertising in *Mangajin* to be a valuable source of information. In the early issues, readers actually complained that there was not enough advertising and that this made *Mangajin* seem less "magazine-like." At 25%, our current ad content is still lower than that of most periodicals, so I certainly don't feel that we have gone too far.

I might also add that the early issues of *Mangajin* contained no color, were printed from laser printer output rather than typeset, and used a simple 2-line format in the manga pages rather than our current 4-line format.

**Speaking of advertising**, coming up at the end of 1994 is our special on Masterpieces of Japanese Advertising. I have always considered advertising to be one of the ultimate manifestations of pop culture, but what constitutes a "masterpiece" is a rather subjective matter. If there are any ads—print ads, TV commercials, whatever—that you would like to nominate for inclusion in this issue, please let us hear from you.

## Samurai hair

I would like to know how the samurai hairdo evolved—the top shaved off, the rest grown out, pulled up and back into a ponytail with the tail resting on top of the shaved part.

MIYUKI WITTENBERG  
West Palm Beach, FL

*The topknot you describe, known as the chonmage, was copied from China and became common in the seventh century. Samurai warriors began to shave the tops of their heads for comfort under battle helmets, and the look became popular with men of other social classes as well. With a few variations, this enduring 'do lasted all the way up until the late 1800s, when the modern-minded government began to discourage topknots. Western-style short hair took over and has reigned ever since. The best place to find a chonmage nowadays is on a sumo wrestler.*

## Wordtank defense

A small quibble with Douglas Horn's comments on the Canon Wordtank (Mangajin No. 37), of which I am a devoted user. Horn says that "painfully sounding out a word and looking it up in a dictionary . . . forces the student to understand the difference between long and short vowel and consonant sounds, and to understand the *gojūon*," implying that the Wordtank does not.

In fact, just as with any Japanese word processor, one must know the correct spelling of the word to look it up in the Wordtank. This actually can make it more challenging to find words in the Wordtank at times than in, say, the large Kenkyusha J-E dictionary, written in romaji.

It's certainly true that the Word-

tank makes it easier to look up a character than to remember it. But the Wordtank, far easier to put in one's pocket than a Nelson's, a Kenkyusha and an E-J dictionary, can be a great boon for students of Japanese. Next time you're sitting on a Yamanote-line train and want to figure out that advertising poster, you'll be glad to have one.

## The Kanji Kid

I would like to see more basic (introductory) examples of kanji. I am attempting to learn kanji, but am having limited success. How about a section in *Mangajin* to get us novice Japanese readers up to speed? For example, a monthly kanji lesson starting from the very basics, a monthly quiz, and reading samples using the basic kanji introduced so far.

LARRY SCHECK  
Winston-Salem, NC

*Each issue of Mangajin is designed to stand on its own—we don't include grammar or kanji lessons which "build" from issue to issue. This is partly because we have new readers joining the fold with every issue, and partly because Mangajin is intended to be an entertaining way to use what you have learned elsewhere—not a textbook. Because we include translations and notes, however, even those with only a very elementary knowledge of Japanese can use what they have learned and rely on the translations to get them through the rest.*

*But there are a number of kanji learning aids out there. Kanji computer programs, for example, are listed in this issue beginning on page 14. A more low-tech, traditional method is the kanji workbook. One of our favorites is 250 Essential Kanji For Everyday Use, which is sold in our catalog. Developed by the Kanji Text Research Group at the University of Tokyo, this workbook fulfills most of your requirements, including quizzes, exercises, and readings from real-life situations.*

# BLOOPERS

## Pisces and pot stickers

One day I walked into a precious stone shop in Japan where there was a large chart on the wall about birthdates and birthstones. I told the shop owner that my birthdate is March 16, which is Pisces (called *uoza* 魚座 in Japanese). She told me that I had the same birthstone as her—aquamarine—so I asked when her birthday was. She replied February 28, and I said, "A . . . *anata mo gyōza desu ne.*" ("You're *gyōza*, too, aren't you?") I'd wanted to say, "Oh, you're a Pisces (*uoza*), too." but I gave the kanji 魚 its more common reading of *gyo*, and told her that she was a Chinese pot sticker (*gyōza*) instead! As soon as I said it, I realized what a silly mistake I'd made.

TAMARA DASILVA  
Hokkaido

## Hookers on phonics

My blooper occurred after I had lived in Japan for about five months as an exchange student in Nagoya. After finishing the semester, I traveled with my girlfriend Nobuko to Tokyo to visit her parents. Her mother asked me if I had been doing any part-time work. I explained that I was teaching a small private English class, and that "*Watashi no gakusei wa minna shōfu desu.*" which translates to "My students are all prostitutes." By inadvertently replacing *shufu* (housewives) with *shōfu* (members of the oldest profession), I brought a look of total *bikkuri* to the mother's face—once again proving that a misplaced vowel can be costly!

## 聴ックオフ Kikku Ofu

“Kick Off / Listen Off” (with your J-League Radio)

The advertisement features a blue background with the Panasonic logo in the top left. In the center, the slogan '聴ックオフ' (Kikku Ofu) is written in large white characters, with 'ラジオ' (Radio) and 'J-LEAGUE' written below it. To the right, a soccer player in a yellow jersey is shown kicking a ball. Below the main text, there are several Panasonic J-League Radio units, each with a different team's mascot and colors. At the bottom, the text 'パナソニック Jリーグラジオ' (Panasonic J-League Radio) is displayed, along with the price '¥3,980' and the company name '松下電器産業株式会社' (Panasonic Corporation).

Since the formation of the Japan Professional Soccer League in May of 1993, soccer mania has swept Japan (see article on page 24), spawning a seemingly endless array of J-League-inspired products. “Supporters” (a hardcore variety of sports fan unique to the J-League) can wave J-League flags, wear J-League jeans, eat J-League candy, and now, thanks to Panasonic, listen to J-League games on J-League radios colorfully adorned with team names and logos.

As with most of the 200-plus J-League products, the attraction of the J-League Radio lies mainly in the packaging; aside from the trendy mascots on the package, it’s basically just a radio (although it does pick up the sound portion of TV broadcasts on three channels).

The bold heading reads *Kikku Ofu* (“kick off”), one of many phrases taken from English and incorporated via katakana into Japanese soccer terminology. The *ki* part of *kikku*, however, is written with the kanji for “listen” (聴く, *kiku*) rather than with katakana. So, you can *kiku* to the *kikku ofu* on your brand new J-League Radio.

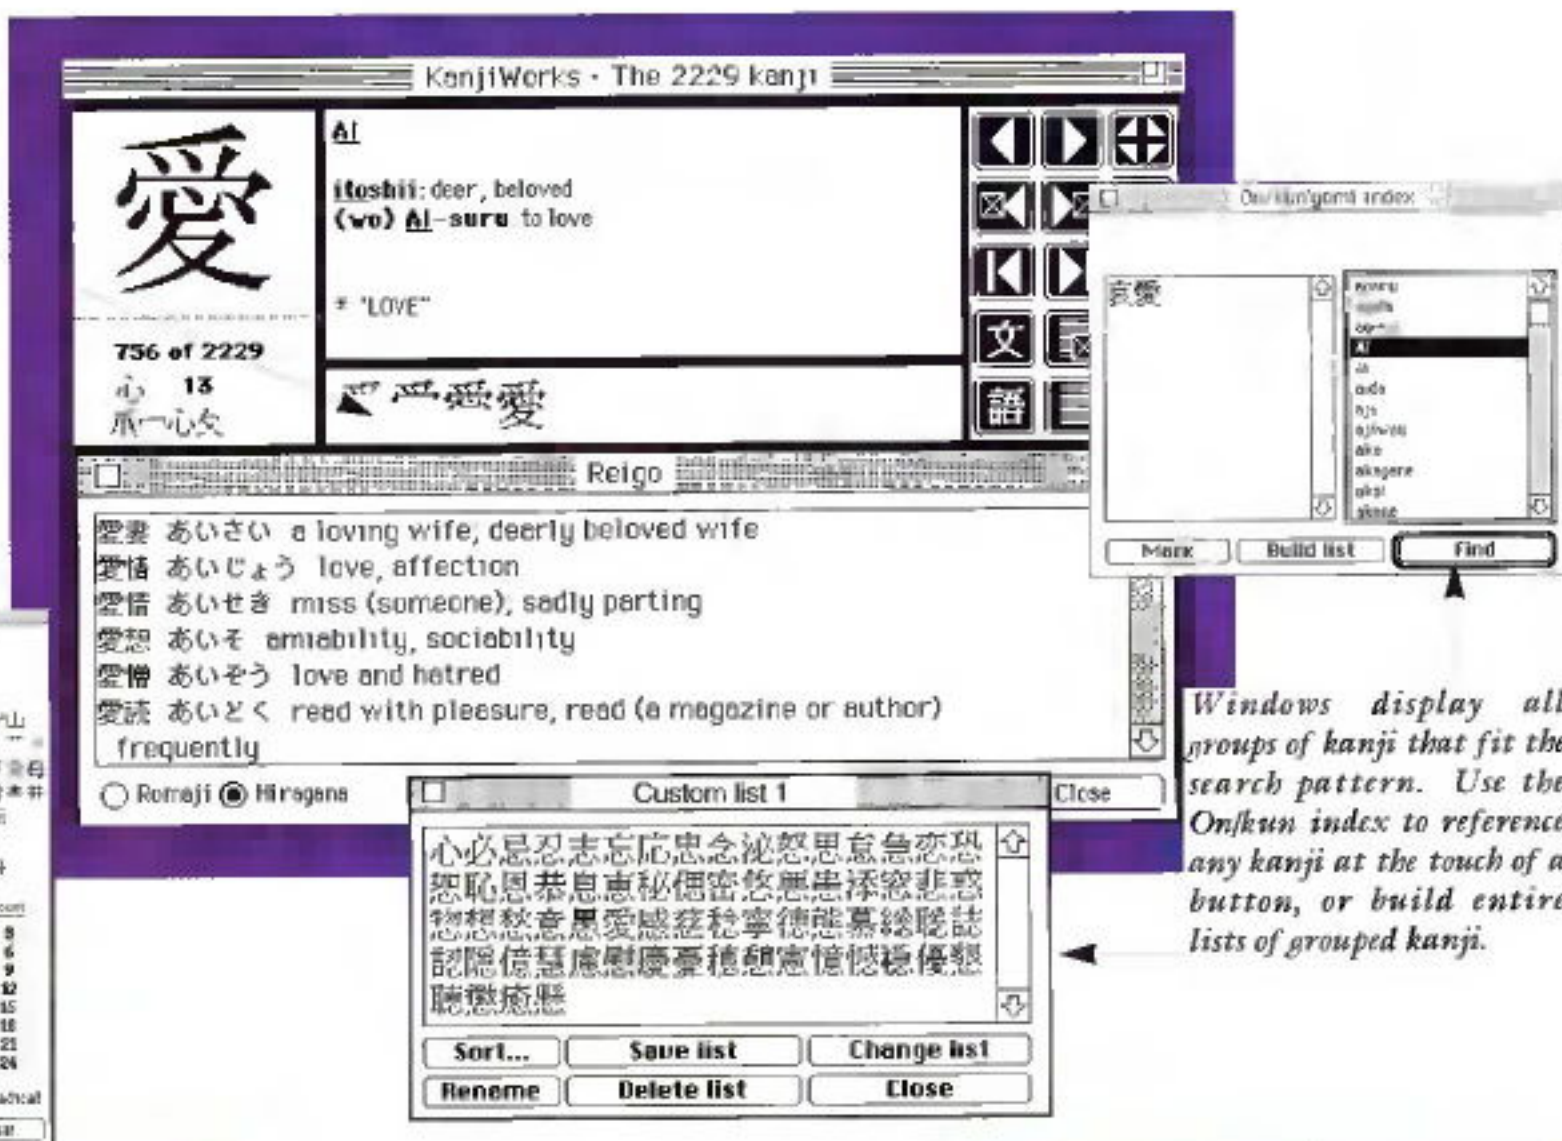

The fact that this ad appeared in the girls’ fashion magazine *mcSister* is indicative of the J-League’s popularity among young Japanese females, which in turn helps explain the pervasive cuteness in soccer-related products and paraphernalia.

Send us your examples of creative product names or slogans. If we publish your example, we’ll send you a MANGAJIN T-shirt. In case of duplicate entries, earliest postmark gets the shirt. BRAND NEWS, P.O. Box 7119, Marietta, GA 30065

## Introducing

**KanjiWorks** is a new language learning aid and kanji dictionary for Macintosh designed to make mastering kanji faster and easier than ever before.

**KanjiWorks** features over 2,200 characters, 7,500 compounds, 3,000 example sentences, animation, kanji quizzes, and much more, making **KanjiWorks** the most complete kanji learning aid available for Macintosh.

Custom lists permit you to concentrate only on the kanji you want to study. Kanji quizzes drill you on the characters you want to master.

Easy reference by reading, meaning, stroke count, radical, or contained element make referencing kanji quick and easy. Floating windows and search palettes make **KanjiWorks** fun and easy to use.

One click of the mouse brings up all the kanji with a given radical, element, reading, meaning, or stroke count. Or type in a Japanese character, and put the power of a computer dictionary to work for you.

**KanjiWorks** contains enough kanji, compounds, and example sentences to satisfy the needs of most college-level students of Japanese. And future upgrades to larger dictionaries will help your **KanjiWorks** grow into a complete desk-top reference set and tutor.

**KanjiWorks** does not require Kanji-Talk, The Japanese Language Kit (although they are recommended for superior performance), or any other software.

- *juro ka nō*, a colloquial equivalent of *darō ka nū* (“I wonder if . . .”), is normally used by middle-aged and older men. The implication is that Murayama (and his approach) is a little outdated.
- the full name of the U.N. Security Council is *Kokusai Rengō Anzen Hoshō Rijikai* (国際連合安全保障理事会) and its members are referred to as *rijikoku* (理事国) or, in the case of permanent members, *jōnin rijikoku* (常任理事国).
- the name 功 is often read Isao, but Kō is written in katakana over the signature.

首相の懸念—これで すむ じゃろ かのう  
小島 功

**This August 30 political cartoon** refers to a recent trip made by Prime Minister Murayama Tomiichi throughout South-east Asia. Since the havoc it wreaked during World War II, Japan has not been especially well regarded by its Asian neighbors; to the contrary, these countries have generally viewed the possibility of Japan expanding its political role on the world stage with fear and trepidation.

But on his tour this August, Prime Minister Murayama encountered a very different attitude. Impressed by recent admissions of wartime guilt on the part of Japan, and anxious about post-Cold War politics and developments in Western attitudes toward trade with Asia, the Southeast Asian countries are now expressing a desire to create a unified Asian front with Japan playing the leading role. Specifically, they would like to include Japan in a new East Asian Economic Caucus (東アジア経済会議, *Higashi Ajia Keizai Kaigi*), and to see Japan become

a permanent member of the U.N. Security Council so that it will be able to represent the interests of Asia to the world.

This is a welcome change, but it puts Japan in a rather difficult position. First of all, the United States is strongly opposed to the idea of an East Asian Economic Caucus, and while US-Japan relations have been troubled of late, the US is still an important Japanese ally. Secondly, while the Southeast Asian heads of state have clearly stated that they wish Japan to play a leading role in maintaining the peace and stability of the region, they have failed to clarify exactly what this means, causing Murayama no little consternation. Traditionally, Japan has approached foreign relations by digging into its pockets. The creator of this cartoon seems to doubt that a member of the U.N. Security Council will get very far in today's world with that strategy.

# CALL

Computer Assisted Language Learning

## for Japanese

*CALL (Computer Assisted Language Learning) for Japanese is a more controversial topic than might be imagined. Although most CALL users are satisfied, many express misgivings. These range from detailed complaints about how individual programs run to a more general discomfort concerning the use of computers to teach language—especially one as difficult and complex as Japanese. We solicited opinions about CALL—its pluses and minuses and its relationship to the classroom—from teachers, users and developers. Their edited comments follow.*

### ***What are the advantages of using CALL?***

It's good in that the students can use it when the teacher's not available; it reinforces what the students have learned."  
(Wuanita Kinoshita, high school teacher)

"It's self-paced and I can do it late at night, whenever I want to—that's the thing that's most useful to me."  
(William Chase, general contractor and CALL user)

"The nice part of the program is that it stops where you stop, and when you get back into it, it's right there."  
(Jacob Thiessen, retired scientist and CALL user)

"It's more powerful to me than just listening to tapes, since I can see things written and get the visuals at the same time. For the time I'm putting in, I think I'm learning a lot."  
(Chase)

### ***What are the current shortcomings of CALL software?***

"You need to have quick response time [from the software], but dead time is still a problem with many programs."  
(Cliff Darnell, high school teacher)

"The programs tend to be rigid in terms of guiding the user on

a particular path. Intermediate and advanced students, especially, would benefit from having more control."  
(Jose A. Feliciano-Butler, professor and multi-media coordinator)

"I get kind of tired of the music and the sound effects all the time."  
(Steven Sakurai, computer programmer and CALL user)

### ***Who is it good for? What can the user achieve with it?***

"Most of it is very fundamental, for beginners. It would be nice to have programs for more advanced students, too."  
(Takuo Kinoshita, middle school and high school teacher)

"Really it's not suitable for rank beginners. You need to have been exposed to Japanese before, because otherwise there are so many things you don't really understand. But I think it's great to solidify existing knowledge and to expand on it."  
(Thiessen)

"A program can be used for various different levels of students. It really depends on the creativity of the instructor."  
(Feliciano-Butler)

**How does it compare to learning in a classroom? Can it be used as a substitute?**

"If I had the time, I would prefer a class. A teacher would correct my faults, but with this I can only guess that I'm saying things the right way or learning the right things. A class would make me reach harder and faster, but as long as I don't have ambitious goals, it's fine." (Sakurai)

"What I miss using a program like this, that's useful in a classroom setting, is having other people to learn along with and from and sort of share the experience and the frustrations with." (Chase)

"You can't learn real conversation just with the computer. You can learn a lot of Japanese, but for conversation I think it's still worthwhile to have a class." (Thiessen)

"At this point, a computer can't answer every question or present every situation. The ideal situation is a partnership

between the computer and an instructor." (Feliciano-Butler)

"It depends on the goal of the learner. If becoming a proficient speaker of Japanese is the goal, then I would say no. No matter how sophisticated it got, a computer could not become a substitute for a human instructor. But if someone is looking for survival skills in Japanese, like a business person who doesn't have time to take classes, then it would be okay [to study with a program alone]." (Kazumi Hatasa, professor and CALL developer)

"To get a command of what I refer to as "basic Japanese," you can do it faster on the computer than you can with any teacher. . . I'm not saying that you don't need teachers period, but we have definitely established that it is possible for just about anyone to get a basic command of either Japanese or English only with the computer." (Kenneth Butler, professor and CALL developer)

In the following pages, we introduce you to 64 Japanese CALL programs. The list is broken down into three main categories: programs for IBM/PC, programs for Macintosh, and CD-ROM/laserdisk programs (for Macintosh and/or IBM/PC). Each entry provides the name of the program, the developer, the vendors (☛), requirements (Req:), and a brief description (◆). For more detailed information, please consult the appropriate vendor(s). Contact information is provided in a separate listing at the end. (Please note that Japanese names are written in the Western style, i.e. family name last.)

### INTERACTIVE GAME

Heian-kyo is the imperial capital of Japan in the year A.D. 1000. Regency, the city's strategic main gate, is where the game begins. As you pass through it and look out on Suzaku Avenue, you come face-to-face with a shallow world of great beauty and strangeness, of gods, demons, and games of chance. Where do you go? What speaks the truth?

Enter the stunningly beautiful world of ancient imperial Japan in this new CD-ROM adventure. *Cosmology of Kyoto* is an interactive world of realistic illustration, lively animation, sound effects, and voices. You enter the old capital, and at every gate and street corner you confront a world of protective deities and menacing spirits. You absorb the life and customs of the time through encounters with shopkeepers, gamblers, beggars, and criminals. You die and are reborn. You journey on—but to where, and to what end?

All the images and events depicted on your journey are based on actual historical records, and these can be further studied with the CD's encyclopedic illustrated database. As you explore through the game you come to understand the Kyoto mindscape that is today regarded as the wellspring of Japanese spiritual and aesthetic culture. Fully bilingual, the program can be set for English- or Japanese-only on-screen display, with optional Japanese voice. (Note: *Cosmology of Kyoto* contains graphic scenes of Demon Hell as well as some mild erotic content.)

*"The richness is almost overwhelming... The graphics are hauntingly effective... This is a wonderful game."* — ROGER EBERT, *Wired magazine*

# New Game in Town

Since last summer's debut, the Japan Professional Football League has had great success finding fans in a nation where baseball has reigned supreme—until now.

by Kirk Martini

**J**—League soccer is more than a new game: it's a new attitude, a new relationship between a game and its sponsors. In baseball, Japan's premier team sport, this relationship is close, and the game reflects the spartan values of discipline and sacrifice that pervade traditional corporate culture in Japan. The J-League has introduced a much looser relationship, using a marketing blitz to create its own image of an exciting, glamorous, and exotic sport. Corporations support that image because it's popular, and that support makes it more popular. It's an upward spiral that shows no signs of slowing.

## In the beginning . . .

Hardly known as a soccer powerhouse, Japan has played the game longer than most people realize. Popularity hit a peak in

the 1960s when the Japanese team finished in the top eight at the 1964 Tokyo Olympics and took the bronze medal in the 1968 Olympics at Mexico City. The game soon slid into popular obscurity, however, played mainly by corporate-sponsored teams. By the late 1980s, corporate teams were playing to crowds of only a few thousand spectators. A rag-tag collection of these anemic teams, combined with shrewd and relentless marketing, formed the beginnings of today's J-League hysteria.

Corporate-sponsored teams have been an important part of the Japanese sports scene for decades. Many companies maintain teams in sports such as rugby, soccer, baseball, volleyball and American football. These teams are like super-charged versions of an American company softball team. Some corporate baseball teams have million-dollar budgets that include cheerleaders and all the trappings of a pro team. Players are on the books as company employees, but many are really full-time athletes, some with salaries in the \$200,000 range. Like numerous other facets of corporate Japan in the 90s, however, many teams have fallen victim to the recession.

Although both J-League soccer and professional baseball have their roots in corporate-sponsored teams, they've taken

• slid into popular obscurity = 知らぬ間に忘れられ *shiranuma ni wasureware* [slide into = 知らぬ間に...になる *shiranuma ni ... ni naru*] • [popular obscurity = 世に知られていない状態 *yo ni shirarete-inai jōtai*] • rag-tag = 寄せ集め *yoseatsume* • shrewd = 抜け目のない *nukeme no nai* • trappings = 飾りもの/付属品 *kazarimono/fuzokuhin* • facet = 面/様相 *men/yōsō*

different paths. Pro baseball has maintained the traditional role of the corporate team as a public relations arm, generating good will and enhancing public image for a single sponsor. In most cases, the relationship between team and company is very tight.

### ... and then there was J-League

The J-League is based on a completely different concept, and plays by different business rules. The league is the brainchild of its chairman, Kawabuchi Saburō, a veteran of Japan's 1964 Olympic soccer team. Kawabuchi's philosophy is to make money by putting on a show and marketing it like crazy. If the show and the marketing are good, then corporate sponsors will scramble to sign up. Armed with market research indicating that interest in soccer among those in their teens and twenties nearly matched interest in baseball, Kawabuchi started selling his vision of a professional soccer league to potential sponsors in the late 1980s. It was the peak of the bubble economy, and companies were flush with cash and eager for new forms of promotion. Kawabuchi lined up more than 100 sponsors.

For most teams, the primary sponsor is a large Japanese corporation such as Mitsubishi or Mazda. In addition, there are several secondary sponsors and shareholders, many of which are foreign companies such as Nestle, Ford, and Coca-Cola. Some teams have sponsorship from local citizens groups as well. Each player's uniform is decorated with at least three corporate logos: one on the chest, one across the shoulders, and

(Opposite page) A J-League match is more than a show of athletics—the spectacle of devoted fans (cheering on the Shimizu S-Pulse) is part of the fun. (Above) Japanese soccer legend Ramosu Rui (r.) defends Verdy Kawasaki against the Kashima Antlers.

the logo of this year's official supplier of J-League uniforms, Mizuno sportswear. Mizuno designed uniforms for the entire league as an ensemble, so that only the players—not the uniforms—clash on the field.

Curiously enough, the logos of secondary sponsors are often most prominent. The uniforms of the Verdy Kawasaki team,

# POWER JAPANESE

Award-Winning Interactive Multimedia Learning System

## WHAT IS POWER JAPANESE?

*Power Japanese* is a comprehensive interactive multimedia learning system for the Japanese language.

The main goal of *Power Japanese* is to enable you to start expressing your own thoughts in Japanese with minimum fuss. *Power Japanese* uses a number of techniques including sounds, interactive drills, innovative screen designs and careful selection of materials to provide a vibrant learning environment that maintains your interest in the information at hand, while helping you to retain what you have learned.

**Sounds.** Thousands of spoken words and sentences are instantly accessible.

**Interactive Drills and Games.** Active learning at its best! Fully interactive presentation of material is reinforced by challenging and fun drills which help to anchor all the central concepts in your mind.

**Selection of Materials.** Key basic patterns of the language which are systematically presented, enable you to grasp the fundamentals of Japanese quickly.

**Voice record/compare.** Record and playback your own pronunciations and compare them to those of native speakers.

for example, display the Coca-Cola logo across the chest, even though its primary sponsor is the Yomiuri media chain. Mazda sponsors a team that has the Ford logo on the chest. This seems like a logical arrangement since Ford and Mazda have had several successful joint ventures in the automotive world, but it will be a cold day in Okinawa before competitors share shirt space in baseball.

Always looking for opportunities, the J-League has found more to offer potential sponsors than individual teams—companies bid for sponsorship of the season itself. The season is divided into two halves called stages; there's a winner for each stage and then a playoff series between the two winners. This year the first stage was named the Suntory Series (won by Sanfrece Hiroshima), and the second stage, the Nicos Series (Nicos, also known as Nippon Shimpan, is a credit company).

In addition, there's the Nabisco Cup, a short tournament for the whole league, plus the Kodak all-star game. The season stretches from May to November, and there are sponsors all along the way.

TV rights and League paraphernalia also pull in lots of cash. During the doldrums of corporate soccer, television rights for a game sold for about ¥300,000, but it didn't really matter, since games were rarely televised. For J-League broadcast rights, Kawabuchi negotiated a headline-making deal of ¥10,000,000 per game. Official J-League goods such as towels, watches and caps are all designed and manufactured by Sony Creative Products; the company markets a line of more than 200 products in over 100 stores nationwide. Annual sales are projected in the \$300 million range. Products appeared on shelves seven months

# MY NEIGHBOR TOTORO

## An enchanting Japanese anime is dubbed into English—with mixed results

*My Neighbor Totoro*, 1993. Directed by Miyazaki Hayao. Color, 87 minutes. Distributed by FoxVideo, Inc.

**T***onari no Totoro* (1989), written and directed by Miyazaki Hayao (best known for 1984's *Nausicaä of the Valley of Wind*), is a delightful animated film, a warm visual womb from which we are loath to leave. Set in rural Japan, the movie revolves around two sisters' encounters with Totoro—an enormous and furry magical creature—and his friends.

The animation is brilliant in its sensitivity to beauty and its attention to detail. When the frames fix on certain elements of nature we see them as if for the first time. In our first glimpse of the great camphor tree under which Totoro lives, the frames take us from the huge, gnarled, curving roots at its base, up the great trunk, and over the branches, higher and higher. As the camera pulls back, we notice how the dancing leaves reflect changing shades of green as the sun catches their shiny surfaces and duller undersides in turn.

Our first glimpse of water is equally breathtaking. There is none of the opaque blue that passes for water in most American cartoons, but rather the sun glinting off a stream so clear that we can see down through its running water to the smooth rocks of the stream bed and the tiny fishes darting among them. Many tableaux—the sky at dusk, its rose

and lavender hues glowing warmly from the tile roof and old timbers of the country house—are a treat for the eyes.

The human characters are also lovingly rendered, although with less attention to realistic reproduction. Like print manga, these animated characters express their feelings with the stereotypical exaggerated faces of horror, surprise, delight, and so on. But Miyazaki is also able to convey more tender and complicated emotions, as when the younger sister, Mei, first sees the “soot sprites” (*makkuro kurosuke*) that live in the old house. The film moves in to a close-up of her face that is a wonderful mixture of surprise, fear, awe and determination.

Unfortunately some of the sensitivity, complexity, and humor are lost in the

recently released English-dubbed version of the film, called *My Neighbor Totoro*. The characters come across differently in English, not only because of occasional stilted translations (inevitable in the case of certain stock phrases such as *gokurōsama* and *osewa ni narimashita*), but also because of the different timbre of the voices and their lack of local dialects. An old neighbor woman who helps the sisters and their father move into their home (the mother is in a hospital, apparently suffering from tuberculosis) is a wise and charming character in Japanese, in touch with the intense inner life of children, with nature, and with the spirit world. Her character is conveyed largely through her rural accent and quiet, caring tone of voice. In English the woman

has a sort of high-class nanny accent that makes her a distant and at times even frightening presence.

The two sisters, Satsuki and Mei, are charming and cute, but in Japanese they also manage to evince a certain depth and seriousness, which is lost in the English. In the first twenty minutes or so of the English version, the girls explore their new home while babbling foolishly, with an exaggerated, boisterous delight that quickly becomes irritating. For example, when Mei

Satsuki and Totoro enlist the aid of an amazing catbus

• visual womb = 視覚的な母胎 *shikakuteki-na botai* • loath to leave = 去りがたい/離れがたい *sarigatai/hanaregatai* • camphor tree = くすのき *kusunoki* • gnarled = ごつごつした/ねじれた *gotsugotsu-shita/nejireta* • glinting = きらめく *kirameku* • tableau (pl. tableaux) = 印象的情景 *inshōteki jōkei* • render = 描く *egaku* • timbre = 音質/特徴 *onshitsu/tokuchō* • nanny = 乳母/長期契約のベビーシッター *uba/chōki-keiyaku no bebiishittā* • evince = 示す/表わす *shimesu/arawasu* • inane = 無意味に/ばかげた調子で *muimi-ni/bakageta chōshi de*

catches the soot sprite, she simply says "Totta." But in English, she chatters on inanely: "Guess what, Sis! Guess what! I got one! I got one!" In the Japanese, there are more silences, more balance.

Later, there is a mistranslation when the girls wake after a midnight excursion with Totoro in which he helped them cause some magic seeds to grow. In the morning they discover that the magic seeds have in fact sprouted, and dance joyfully around the plot, chanting, "It was just a dream!" "It wasn't a dream!" In Japanese they say, "Yume da kedo . . ." "Yume ja nai . . ." ("It was a dream . . . but it wasn't a dream"). This may seem at first a small point, but in the Japanese we are made aware of the wonderful, mystical overlap between what's real and what's not, between the physical world and the spirit world, our waking life and our dream life. In English, this shimmering truth is reduced to childish contradiction.

Even when the translations are accurate, as they usually are, the film may seem odd to some Westerners as it veers from childlike naiveté to flights of bizarre fancy to horror. (At one point, the villagers are poking long bamboo poles into a pond, looking for Mei's body after she has disappeared.) In fact, elements of this tale, like the storylines of many Japanese girls' manga, owe as much to horror movies and the impressionistic style of Kawabata novels as to the childhood dream of flying out the window and following some magical being to a never-never land without parents and problems. Underneath the surface of idyllic country life, the film has a certain fascination (as do children) with sickness, horror, and death: the children's mother may be dying; Mei disappears and is for a while presumed dead; Totoro, with his enormous mouth and roar, may be a child-eating monster.

But every time harsh reality threatens, there are magical interludes with Totoro, such as when the children are waiting at the bus stop in the rain for their father and Totoro appears next to them. Satsuki (who has not yet encountered Totoro) glances over to see a pair of huge, hairy, clawed feet. Her gaze moves upward to a clawed paw scratching idly at an enormous belly. She shudders in fear and looks down—then slowly up again to the gentle face staring straight ahead, drops of rain falling from the tip of a leaf on his head onto his button nose. She gives him her father's umbrella and just before he boards a magical catbus, he gives Mei the packet of magic seeds.

The best movies are like myths, retaining some of the magic and awe of religion. In this century, when movies have become the repository of the powers of magic and myth, it is not so surprising that a movie like *Tonari no Totoro* should become popular. As a contemporary miracle play, it is an act of tenderness, a story of love, faith, and mystery. As an animated video for the kids on a rainy afternoon, it is an enchanting and visually irresistible treat.

INTRODUCING

# Japan Related

## A Cross-Cultural Journal

Introducing **Japan Related**, a new magazine created to help Japanese and Americans work together more effectively.

Differences in American and Japanese values, beliefs and attitudes can lead to cultural clashes in any situation, but in business relationships these clashes can become especially intense since money, jobs and even personal honor are at stake. When Japanese and Americans work together, communication is essential, and it has to flow in both directions.

**Japan Related** was created to facilitate this essential communication.

For American readers, **Japan Related** provides the background information needed to succeed in a

Japanese environment. It offers insights into the attitudes and behavior of Japanese bosses, co-workers, subordinates, suppliers and customers.

For Japanese readers, **Japan Related** provides access to American voices they might not hear otherwise. It also offers valuable perspective on how they are perceived by their American colleagues. This awareness can help prevent unnecessary miscommunication and conflict.

Each issue of **Japan Related** focuses on a theme—topics like: negotiation, decision-making, cross-cultural gender issues, quality standards, and performance evaluation. Key articles are presented in both Japanese and English to stimulate cross-cultural discussions,

and to provide living, relevant material to language students on both sides of the barrier.

Don't miss out on this opportunity to learn about Japan and generate a productive dialogue between Japanese and Americans. Subscribe to **Japan Related** today!

アメリカを理解すると同時に、日本を理解してもらうことが、アメリカの人々と仕事をしていく上で、非常に大事なことです。しかし、日本人の考え方、ホンネ、日本の企業の仕事の仕方、習慣といったことがどれだけ正確にアメリカ人に説明できていたでしょうか? Japan Related は文字通り「相互」理解を助け、深める為の画期的な forum 誌です。

# An interview with Wayne Lammers

*Last year, Mangajin Translation Editor Wayne Lammers won the 1993 PEN West Literary Award for his translation of *Still Life and Other Stories* by Shōno Junzō. Now, this year, he has been awarded the 1993-94 Japan-U.S. Friendship Commission Prize for the Translation of Japanese Literature for the same book.*

*Wayne has been involved with Mangajin since 1988. He was then Secretary of The Association of Teachers of Japanese, and when I contacted the group about my plans, he provided some valuable input, as well as moral support, at a critical stage in the development of the magazine.*

*In this interview, Wayne tells about his background as a translator and provides some insights into the making of an award-winning translation of Japanese literature.*

—Ed.

**Would you tell us a little about your background and how you acquired your Japanese language skills.**

The most important part of my background as it applies to my work today is the fact that I was raised in Japan and went to Japanese school through the 6th grade. This meant I went through those first 12 years, which are considered so crucial in the development of native language skills, as a natural bilingual.

There was a time during grade school when Japanese was probably my stronger language: my brothers and I would typically use Japanese amongst ourselves even though we always spoke to our parents in English. Today, English is by far my stronger language, but obviously the deep familiarity with the Japanese language that I acquired as a child has been a tremendous advantage to me as a translator.

**How did you become a translator?**

Since I already had the language skills, I worked as a part time translator/editor

while attending Sophia University in Tokyo. By the time I graduated I was seriously considering a translation career, and hoped I'd eventually be able to do literary translations.

When I entered grad school at the University of Michigan, it was really only because I wanted a bit of literary training to help me better evaluate potential translation projects. I planned to take an M.A., go into commercial translating, and work on literary projects on the side. But then my advisors persuaded me that the best way to support a literary translation habit was to become a professor of Japanese language and literature and make translation the main focus of my scholarly publication activities.

**How did you get started translating Shōno?**

It began as an independent study project in grad school. My professor, Robert Danly, suggested "Still Life," and I started working on it a chapter a week. Then, as the semester progressed, he decided I had the right instincts and suggested I plan to publish it. So I got

Shōno's address out of a directory in the library and wrote to him to inquire about rights, enclosing several chapters as samples. Shōno's first response, actually, was negative. He pointed out several places where I had departed from the original and politely expressed his reservations. But then Bob Danly wrote a long supporting letter explaining in general terms the types of "liberties" sometimes necessary in translation and praising my translator's instincts—in far more glowing terms than I deserved at the time, I'm sure. I also wrote to Shōno again myself, carefully explaining my reasons for doing what I had done in each particular case, and this time he gave his "Okay." Shōno didn't know Bob Danly any more than he knew me, but the enthusiasm of his letter apparently won the day.

"Still Life" and Shōno's style of writing about everyday things in a quietly contemplative manner really grew on me as I worked, and by the time I finished that one story, I wanted to do more. By using his own family as a kind of generic Japanese family and chronicling their lives in intimate detail, he was depicting life as it really was for the vast majority of Japanese people. In many ways, Shōno gives us a far more representative picture of Japanese life than Tanizaki or Kawabata's novels ever did. Other studies demanded my attention, though, and then my dissertation, so the idea of a collection with "Still Life" as the title piece had to wait.

**What's the idea behind the selection of stories in the collection?**

Shōno has been writing autobiographical stories about his own family since the late 50s, and as his family has grown up, so has the family in his stories. In a loose sense, all these stories fit together into a single narrative—though they also stand on their own as individual short stories, and a number of them have won literary awards. I read what Japanese critics had said about Shōno's writing and got a feel for which were the most important stories in the narrative, representing milestones in the life of the family, and I selected those for the collection, so they could be read together as a small version of Shōno's larger, on-going narrative.

The first two stories don't quite fit, actually; "Evenings at the Pool," in par-

ticular, is about an entirely different family. But I included them as a way of representing the more troubled early years in the life of the family, since otherwise it felt as if something important was missing at the beginning of the narrative. Actually, I vacillated back and forth over whether to keep them or drop them, but ultimately both I and Peter Goodman, the publisher of Stone Bridge Press, liked them too much to cut them.

**How did you go about finding a publisher for your collection?**

When I had five key stories in close to final form, I sent a letter to ten or so publishers describing the full collection that I envisioned. I also sent a copy of the already published version of "Still Life." Three publishers ultimately asked to see the stories—though I didn't hear from the last one until talks were pretty far along with Stone Bridge Press. Stone Bridge was brand new, essentially an unknown quantity, but I had quickly developed a very good feeling about working with Peter Goodman, who seemed

truly to love Shōno's stories. Stone Bridge is still pretty much the new kid on the block among presses that focus on Japan, but I'm continually impressed by the books being added to their list.

**What principles do you follow in translation?**

I suppose the basic underlying principle is that whatever I do, it has to "work" as English in a way equivalent to the Japanese, and I suppose I depend on my instinct to tell me whether something works or not. I try to stay as close to the original as I can, especially with imagery. But when something would get lost in a close translation, I don't hesitate to compensate in some other way to try to restore what's lost. When colloquialism is called for I try to think of what English speakers—at least the ones I know—would really say in that situation, and use it so long as it doesn't conflict with the Japanese world view in some way (for example, I never use "God!" as an exclamation). I also don't hesitate to make things fit English narrative con-

ventions so that the English reader will be comfortable with it; I consider that part of getting it fully into the target language. You could say I strive to create what the author would have created if he had written in English. That's a principle others have stated, and it's a tricky one, since it's easy to cross the line to where you're writing what *you* think the author should have said or meant to say—which is why it's so important to maintain the discipline of following the original as closely as possible. Beyond these very general principles, though, I think all good translators quickly realize that in translation everything is context. What works in one situation won't work in another, so every aspect of every rendering depends on a separate, largely intuitive judgement: does it work or not?

**When you left academia two years ago what drew you away?**

If I were to point at something as "drawing" me away, I'd have to say *Mangajin* did, since my small but growing in-

# From Cyprus to Kanazawa

*A journey across cultures*

by Jeremy Jensen

*After six years in the Middle East based in Cyprus, I attended a one-month language training course at the Eurocenter in Kanazawa before joining Reuters in Tokyo. This article is the story of the month I spent in Kanazawa.*

It took only seven minutes to embark 300 passengers onto the jumbo jet bound for Komatsu in Ishikawa, a 45-minute flight from Tokyo's Haneda airport. The speed, safety, efficiency and discipline of the Japanese passengers and crew stood in stark contrast to the last flight I had taken from Beirut to Cyprus one week earlier. In Beirut check-in and boarding took well over an hour, delayed by at least seven armed security checks.

On arrival at Komatsu I was met by my host father, "Otōsan," who spoke practically no English and who chatted to me confidently in Japanese during the 40-minute drive to Uchinada (a town just outside Kanazawa on the Sea of Japan). I couldn't understand a word. At Otōsan's house I met the rest of the host family with whom I would be staying for the month of July. "Okāsan," my host mother, spoke some English.

My room was a square affair at the top of the house with *tatami* mats on the floor and *shōji* sliding screens as windows and doors. Bedding was a *futon* (soft fold-away mattress) rolled out onto the floor at night. There were a desk and a chair, a desk lamp and some hangers for clothes. The heat and humidity in July were oppressive but there was no air conditioner in sight. The rest of the house was a series of interconnecting rooms and corridors, all with sliding doors and screens. Some rooms were furnished in western style and others in Japanese. In the main living room there was what I can only describe as a square central floor cavity covered by a low table used to keep people warm in winter.

Meal times at Uchinada were delicious, consisting of at least three or four separate dishes (rather less than a Greek Mezze), invariably including fish and rice. It was generally a much healthier diet than I had been used to

in Cyprus. I found the breakfast of fish, rice and tea too rich, but after a mixture of Japanese, sign language and English I established fresh fruit and yoghurt on the breakfast menu by the end of the week.

Commuting to Kanazawa from Uchinada to attend the daily classes was a challenge in itself. At 7.45 I left the house by bicycle to go to the station, where I caught the 8.05 train to Kanazawa. Then I took the 8.30 bus from Kanazawa to the Eurocenter. The train and bus were crowded, but the Japanese commuters made the one-hour journey bearable since, even though they were crammed in, it didn't seem that way because people either slept or read.

My class (the beginners' class) had eight pupils (1 Brazilian, 3 Swiss, a Dane, a German, an American and myself). There were four teachers assigned to us who alternated throughout the teaching day. Almost all the students could speak at least two European languages. This made the course move much more quickly because sentence structure and grammar changes were taken in our stride. I don't recommend learning Japanese as a second language without first learning another.

*Japanese for Busy People* was our textbook, used together with videos and tapes of the appallingly smug Sumisu-san and the dastardly clever Tanaka-san. Thirty chapters and four weeks later we had learned enough to be rude about Sumisu-san in the *-masu* and *-te* forms as well as in the past, the present and the future progressive. We had learnt to do our homework in *romaji* and *hiragana* and at the end I was able to make the class and teachers suffer by writing and delivering a four-minute speech in Japanese.

The afternoons were spent on cultural pursuits. We visited the famous Kenrokuen garden, and tried stone seal engraving, Japanese cooking, *origami* paper folding, black ink

painting and many other activities. The highlight for me was a chat with a local journalist about Japanese politics, nationalism, attitudes about the second World War and the environment.

Meanwhile, back at the family, things were beginning to happen. Saturday night we visited a *sentō* (Japanese public bath) which consisted of sauna, steam room, bubbling spring baths, inside and outside heated pools, etc. I was amazed by how modern everything was, compared with the stereotyped view of a *sentō* resembling a bathhouse from imperial Rome. The sauna had a TV, on which you could watch baseball, sumo wrestling or news. Next was a visit to Noto peninsula, taking in temples, a glass museum, an aquarium (where we could see all the fish we had eaten the previous week), a beautiful island and the most spectacular mountain scenery.

It was clear that Japan had taken great steps to protect the environment with beautiful forests all over the Noto peninsula. I was struck by how successful environmental protection appeared to be. However there were two exceptions. At Kanazawa port I saw huge piles of lumber on the key being imported from Asia (in exchange for exports of Japanese motor cars), and as my Japanese improved I learned that this was for building houses. I felt sorry that, having succeeded in protecting the forests in Ishikawa, the authorities had not found a way to change the construction materials used in house building.

Secondly, trains, buses and the streets were scrupulously clean and virtually spotless, since the cultural asset of cleanliness is instilled in the populace from an early age. The only place to which this cultural rule did not extend was the beach, which resembled a rubbish tip. It seems that when you picnic on the beach in Japan, you take with you and deposit all the garbage that you saved from the trains, buses and streets during the week! This anomaly confounds me.

At the close of the four weeks I was sad to leave this pleasant seaside town and my Japanese family, who had made me feel so welcome. One incident before I left stuck in my mind as summing up a lot about Japan. Someone stopped to take a picture of some yellow-capped school children, and all the kids made the peace sign with their hands. Now, wouldn't it be nice if Japan could export that!

# It's the Real Thing!

“...a delightful volume that both educates and entertains. This is ‘real’ Japanese as spoken by the natives...I highly recommend this book to those who wish to study real ‘live’ Japanese in its genuine socio-linguistic context.”  
• Glen Fukushima, Director, AT&T Japan, and former U.S. trade negotiator

“Basic Japanese through comics presents the reader with enjoyable material as well as valuable information on Japanese language and culture. I recommend it highly as a reference book for learners of Japanese.”  
• Professor Akira Miura, U. of Wisconsin, and author of *Japanese Words and Their Uses*

The first 24 ‘Basic Japanese Lessons’ from *Mangajin*, compiled in book form.

Basic Japanese Through Comics is the ideal supplement to learning Japanese from textbooks. The book uses lifelike situations from real manga to explain linguistic and cultural points quickly and memorably. Each chapter one specific concept of basic Japanese—a phrase, word, or hard-to-grasp idiom—is carefully examined and explained. The lessons cover a wide array of Japanese expression and illustrate usage and cultural context, providing insights into not only the language, but the way the Japanese behave, think and see the world as well.

*Learn essential expressions and get a slice-of-life look into Japanese society at the same time!*

**Each chapter gives you an average of six pages of illustrations from manga covering:**

# UNLOCKING THE JAPANESE BUSINESS MIND

## UNLOCKING THE JAPANESE BUSINESS MIND

Gregory R. Tenhover

300 pages. Softcover. \$17.05 plus postage and handling in the US. ¥2700 plus postage and handling in Japan.

**C**ulture may indeed be the single greatest barrier to successful business relations between Japanese and Americans.

Based on the assumption that developing "cultural fluency" is the key to success, *Unlocking the Japanese Business Mind* first provides a solid framework with which to understand, analyze and interpret differences in culture, then covers practical aspects of Japanese-American business relations—communication, presentation and logic, persuasion, conflict resolution, meeting management, and negotiation.

Going far beyond the typical "how to bow" and "how to exchange business cards" approach, *Unlocking the Japanese Business Mind* provides in-depth analysis of the complex cultural dynamics Japanese and Americans must confront when they come together to work and do business.

### You Can Judge A Book By Its Testimonials...

"Tenhover makes the case that cultural literacy matters, that to remain ignorant of the historical, political, linguistic, geographic, and other cultural parameters of the Japanese psyche is sure to spell failure for the novice business person approaching Japan. *Unlocking the Japanese Business Mind* is a tremendous advance over virtually all the 'how to approach Japan' material on the market today."

— Chalmers Johnson, President, Japan Policy Research Institute; author of *MITI and the Japanese Miracle*

"*Unlocking the Japanese Business Mind* avoids the typical approach of giving simplistic recipes of 'dos and don'ts.' Tenhover provides practical insights into the very different ways Japanese and Americans behave, think and see the world, and the problems that can arise when Japanese and Americans interact."

— Dr. Gary R. Weaver, Professor of International Communication, The American University, Washington, D.C.

"Adeptly combining cross-cultural theory with practical business experience, Tenhover writes insightfully from the perspective of an American who has indeed been in the corporate trenches training Japanese and Americans to more effectively work and conduct business together."

— Dr. George Graen, President, Association of Japanese Business Studies; Professor of Management, University of Cincinnati

"Tenhover's book, a broad compilation of expert observations about Japan, is unique in combining the general problems of culture and communication Americans are likely to face by moving to any foreign country, with the specifics of the trouble to be faced in Japan. As such, it amounts to a textbook for Americans about to take up assignment in Japan."

— Sam Jameson, Los Angeles Times Tokyo Bureau Chief

"*Unlocking the Japanese Business Mind* sets a new standard for cultural literacy. Tenhover's careful analysis and explanation of the building blocks of Japanese culture give the reader not just a grab-bag of tricks and secret handshake-type gimmicks for operating in Japan, but provide an understanding of how the entire system works... This book will become a major force in more effective and substantial cross-cultural communication and awareness. Worry less about how to hold your chopsticks and read this book!"

— Steve Clemons, Director, Japan Policy Research Institute; former Director, Japan-America Society of Southern California

"...an invaluable asset for anyone involved in cross-cultural training. Cultural differences are real. Tenhover spells out the reasons for these differences, and provides a strong conceptual foundation which can be used to build highly effective training programs."

— Dr. Toshi Kii, Professor of Sociology, Georgia State University; former consultant, Clarke Consulting Group at Dupont Japan, K.K.

### Contest Objectives:

With rapid globalization comes an urgent need for understanding between Japan and the US, but the language barrier still prevents the smooth communication that both parties would like to have.

Translation overcomes the language barrier and facilitates communication, connecting countries and peoples by intermediating between different cultures and languages and promoting understanding between them. Translation is indispensable to the exchange of culture, technology, or information.

"The Babel Translation Award" is a contest targeted mainly at US residents, held each year to scout out and nurture able but unknown translators. We hope that it will promote understanding of Japanese language and culture by the US and that it will contribute to the further development of US-Japan relations.

### Contest Instructions:

Translate the Japanese essay that follows into English. Type your translation on standard 8½ x 11 paper. Cut out or copy this page and fill out the entry form. Mail the translation and completed entry form to Babel Incorporated at the address that follows. No manuscripts will be returned.

- **COMPETITION SITE:** The USA and Japan.
- **ENTRY:** A Japanese essay, translated into English.
- **AWARDS:**  
**1st PRIZE:** Trip to Japan, \$1000, Hardcover copy of *The Essence of Modern Haiku*, 1-year Subscription to *Japan Related*, 1-year Subscription to *Honyaku no Sekai*, MANGAJIN's *Basic Japanese through Comics*, Dictionaries, Certificate and Plaque. First prize winner will be asked to make a report, in English, on his/her trip to Japan.

**2nd PRIZE:** \$700, 1-year Subscription to *Japan Related*, 6-month subscription to *Honyaku no Sekai*, MANGAJIN's *Basic Japanese through Comics*, Certificate and Plaque.

**RUNNERS UP (5):** \$200, Half-year subscription to MANGAJIN, Certificate and Plaque.

- **QUALIFICATIONS:** Any person, regardless of nationality, age, sex or background, who is a resident of the US or Japan and whose name has never been credited as translator or co-translator in any publication may enter. For further information, please call (212) 808-5335, Wednesday through Friday between 10 AM and 3 PM Eastern Daylight Time. To contact us by fax, use (212) 697-4738.
- **JUDGING:** Entries to be judged by ATJ President Hiroshi Miyaji, of Middlebury College, and Paul Schalow, of Rutgers University.
- **SCHEDULE:** All entries must be postmarked before November 30, 1994 to be considered. Final judging will be done in January, 1995, and the award winners will be contacted personally by mail around the end of February. Winners will also be announced in MANGAJIN No. 43.

## 「課題文」マルチメディア時代の著作権

情報のデジタル化とネットワークの発展によって、だれでも容易に大量の情報を入手し、発信することが可能になった。パソコンの高性能化によって、画像や音楽などのデジタル情報の複製・加工が簡単にできるようになってきた。

CD-ROMをはじめとするマルチメディア作品は、こうした背景のなかで次々と創り出されている。そこでは著作権に関する新しい問題が生まれてきている。

既存の著作物を個人利用の範囲を超えて使用する場合、なんらかの権利処理をしないといけない。基本は、著作権の所有者に著作物の利用の仕方や目的を明らかにし、契約をして適正な使用料を払うことだ。古典的な作品でも、商業目的には自由に使えないことがある。例えば、写楽の浮世絵を絵ハガキから複写して雑誌の表紙に使うとする。この場合ハガキの製造元に、使用許可を申請して規定の料金を支払わなければならない。原著作者が死亡して50年以上経つ作品には著作権が認められないのだが、この例のように何らかの印刷物から複写する場合は、印刷物を作った人なり企業なりの許諾が必要である。音楽ではもっと複雑で、作曲家、演奏家、レコード会社などがそれぞれ権利を持っており、古典だからと言って軽々しく複製はできない。

それでも、従来はこうした権利処理は出版社や放送局などの限られた世界で、それなりのルール、慣習に従って実施されてきた。これが、マルチメディア時代では簡単にいかない。

マルチメディア作品は、絵画、音楽、写真、映像、シナリオなどさまざまな既存の著作物や、それを加工したデジタル・データを2次利用する可能性がある。作品を作るときに、従来通りの権利処理を行おうとすると次のような問題が立ち上がる。

- 1) 使用したい著作物の所有者を探すのに時間がかかる。
- 2) 著作権所有者を探せたとしても、マルチメディア・タイトルに対する認識のなさから適正な権利処理が行えない。

こうした問題に対し、マルチメディア時代の著作権問題は2つの方向に向かって動きだしつつある。1つは著作権の集中管理機構を作り複雑化する権利処理を簡素化しようという考え。もう1つは、自由にコピーしたり加工したりできるデジタル素材を増やして行こうという考えだ。

再利用可能な製品はどんどん増えているが、だからと言ってユーザーは無制限に使えると考えてはいけない。制作者の趣旨を尊重して節度のある使い方をすることが重要だ。著作権フリーの意味を勘違いして友人にコピーを配ったり、コピーをネットに上げたりすれば、それは違法行為であるだけでなく、結局、著作権フリー製品の普及を自ら阻害する行為になるだろう。

# BASIC JAPANESE through comics

## Lesson 39 • The Many Faces of “Face” (1)

Our original intention in this lesson was to illustrate expressions related to “saving face” and “losing face,” since these are such important concepts in Japanese society. But when we started looking at manga examples and found “face” appearing in all sorts of idiomatic expressions, we decided to broaden our scope and expand the lesson into two parts. The first part gives a sampling of general idiomatic expressions relating to “face,” while the second delves into the cultural concept of face as “prestige” or “dignity.”

Japanese has several words for “face.” *Kao* (顔) is the generic word, while *tsura* (ツラ or 面) is a slang term with a slightly insulting air to it. *Men* (面) refers to a face or facet of something, and can sometimes be used to refer to a person’s face as well. Some of the idiomatic and colloquial expressions appearing in this first part have surprisingly literal counterparts in English, while others are uniquely Japanese.

With all of these facial aspects thoroughly mastered, you should be able to face your Japanese friends with less fear of, well, losing face.

### A good (looking) face

**Arale, android creation** of the brilliant but klutzy inventor Dr. Slump, has just discovered another piece of his handiwork. It seems that he has invented a camera which can take pictures of the future. He gives a quick demonstration, and Arale is duly impressed.

**Arale:** はかせ かってアタマいいんだね!  
*Hakase te atama ii n da ne!*  
 professor/doctor (as-for) head good (explan.) is (colloq.)  
 “The Professor’s head is good, isn’t it.”  
 “You’re really smart, aren’t you.” (PL2)

**Dr. Slump:** ふふ...カオもいいけどな。  
*Fu fu... Kao mo ii kedo na.*  
 (laugh) face also good but (colloq.)  
 “Heh heh, my face is also good, though...”  
 “Heh heh. And handsome, too.” (PL2)

- the title *hakase* generally refers to someone with a doctoral degree and may be translated as “Doctor” or “Professor.”
- *kedo* literally means “but.” Some form of “but” is often added to the end of a sentence to “soften” it.

## “Nice face” → Smile

Whereas *kao (mo/ga) ii* means “a good looking face,” *ii kao* means “nice/smiling face.” Kuniko, a photographer for a sports paper, is covering high school judo star Yawara’s graduation. Yawara and Kuniko have had their differences, so Yawara is having trouble looking pleasant.

© Urusawa Naoki / *Yawara!*, Shogakukan

**Kuniko:** はい、柔ちゃん！ いい顔 ちよーだい！！  
*Ha-i. Yawara-chan! Ii kao cho-dai!*  
 OK (name-dim.) good face please  
 “OK Yawara, a good face please!”  
 “OK, Yawara, give me a nice smile now!” (PL2)

へんな顔が 記事になっちゃう わよー！！  
*Hen-na kao ga kiji ni natchau wa yo-!*  
 strange face (subj.) article to become-(regret) (fem.) (emph.)  
 “(Otherwise) that funny face will go into the article.”  
 (PL2)

**Sound FX:** タタッ  
*Ta ta!*  
 (sound of quick footsteps as Kuniko approaches Yawara)

- *chōdai* is a colloquial way to say “please.”
- *natchau* is a colloquial contraction of *natte shimau*. The *-te shimau* form implies that the action or result is regrettable/undesirable or complete/final.

## Frown on

Literally translated, *ii kao o shinai* means “not do/make a good face”; the actual meaning is similar to “frown upon” in English. Kuwata works for a shady loan company, and is dealing with a potential borrower who already has several outstanding loans from other sources. Kuwata’s boss agrees to grant the man a loan if they can get Masako, the man’s daughter (who has a respectable job at the ward office) to cosign. Note that Kuwata speaks in strong Osaka dialect, so *ii kao shinai* becomes *ē kao sen*.

**Kuwata:** そんなら こうしよう。身内は  
*Sonnara kō shiyō. Miuchi wa*  
 in that case this way let’s do family as-for  
 審査が ええ顔せんの やけど、  
*shinsa ga ē kao sen no ya kedo,*  
 credit examiners (subj.) frown on (expln.) but  
 正子を 保証人に 付けましょ。  
*Masako o hoshōnin ni tsukemasho.*  
 (name) (obj.) guarantor as let’s attach

“In that case, let’s do it this way. The credit examiners frown on having family members (cosign), but let’s put down Masako as a cosigner.” (PL3-Kansai dialect)

- *sonnara* is a colloquial contraction of *sore nara*, “in that case.”
- *ya kedo* is a dialect equivalent of *da kedo*, “but.”

## “Do” a disagreeable face

In Japanese, you don't “make” or “pull” a face—you “do” (*suru*) one. This can be a bit confusing, since the same type of expression is used to mean that someone *has* a (round/shriv-eled/dopey/etc.) face, but the context will usually keep things clear. In this scene, Haguregumo is going out drinking with a few of his friends, and this old man asks if he can come along, too.

**Old Man:** あら、一瞬 いやな 顔 をしたね。  
*Ara, issun iya-na kao o shita ne.*  
 oh my an instant disagreeable face (obj.) did (colloq.)

いや なの?  
*Iya na no?*  
 disagreeable is it?

“Oh, my. For an instant you did a disagreeable face. Is it disagreeable?”  
 “Uh-oh, for a second there you made a face. You don't want me along?” (PL2)

- *ara* is an interjection showing a sudden realization/awareness, “oh!oh my!”
- *iya-na* is an adjective meaning “unpleasant/disagreeable.” See Basic Japanese No. 33 for a full treatment of *iya*.

## “Do” a difficult face

Shima has just found out that he is being transferred from Kyoto back to the main office in Tokyo. Now he has to tell Katsuko, whom he has grown rather fond of.

**Katsuko:** 何をそんなに難しい顔してはる  
*Nani o sonna ni muzukashii kao shite-haru*  
 what (obj.) that much difficult face do (-hon.)

ん ですか、島さん。  
*n desu ka, Shima-san.*  
 (explan.) is (?) (name-hon.)

“What are you looking so grim about, Shima-san?” (PL3)

- *muzukashii kao shite-haru* is an honorific dialect form of *muzukashii kao (o) shite-iru*, lit. “is/are doing/making a difficult face.” The meaning of *muzukashii kao (o) shite-iru* is “have a grim/troubled expression.” Using *-te haru* as an honorific form of *-te iru* is a hallmark of Kansai dialect, and is especially associated with Kyoto.

© Hirokane Kenshi / Kachō Shima Kōvaku, Kodansha

## Has a gentle/innocent face

The playboy Kazamatsuri kindly offered to tutor Yawara at his apartment so she could do well on her college entrance exams, but of course he had ulterior motives. When his fiancée Sayaka came in unexpectedly and found them together, she accused Yawara of trying to steal Kazamatsuri. The soft-spoken heroine Yawara denied the allegation and then made a hasty exit. Here we see an example of *~ kao (o) shite (-iru)* meaning “has a ~ face.”

© Urusawa Naoki / *Yawara!*, Shogakukan

**Sayaka:** おとなしい顔して、とんでもないくわせもの  
*Otonashii kao shite, tondemo nai kuwasemono*  
 gentle/quiet face has astounding operator/troublemaker  
 ですわ、あのコ。  
*desu wa, ano ko.*  
 is (fem.) that girl  
 “She has a quiet face, (but) she’s an utter trouble-  
 maker, that girl.”  
 “She looks innocent enough, but she’s actually a  
 real operator, that girl.” (PL3)

ねっ、風祭さん。  
*Ne! Kazamatsuri-san*  
 right (name-hon.)  
 “Right, Kazamatsuri-san?” (PL3)

- *tondemo nai* can be used as a strong denial, “it’s not like that at all,” or as in this case, an adjective meaning “preposterous/outrageous/astounding.”
- *kuwasemono* is apparently derived from *ippai kuwaseru* (一杯食わせる, lit. “make (someone) eat a helping” → “cheat/play a trick on”).

## Look on with indifference

Shima has just arrived in the Philippines on business. He and his contact are waiting for traffic to clear up when a small boy knocks on their window and tries to sell them a newspaper or cigarettes.

© Hirokane Kenshi / *Kachō Shima Kōsaku*, Kōdansha

**Kashimura:** 知らん顔をしろ。そんなのに  
*Shiran kao o shite-ro. Sonna no ni*  
 don’t know face (obj.) do that kind of (nom.) with/to  
 いちいち取り合っているとキリがないぞ。  
*ichi ichi toriatte-iru to kiri ga nai zo.*  
 one by one are taking heed of if/when is no end (emph.)  
 “Don’t pay any attention (to him). If you start  
 responding to every one of his type, there’ll  
 never be an end to it.” (PL2)

- *shite-ro* is a colloquial contraction of *shite-iro*, an abrupt command form of *shite-iru*, from *suru*. *Shiran kao o suru* literally means “do/make a don’t-know face” → “pretend not to know/ignore/pay no attention.”
- *shiran* is a contraction of *shiranai* (“don’t know”), the plain/abrupt negative form of the verb *shiru* (“know”).

## A colloquial word for “face”

The word *tsura*, written with the kanji 面, is a slangy or colloquial word for “face.” It’s the word of choice when making disparaging remarks about someone’s facial appearance. Here the oddball on the right was creeping around an old castle when he suddenly came face-to-face with the monstrosity on the left, giving them both a start.

**Igor:** きゆうにぶきみなツラを だすな よーっ!!  
*Kyū ni bukimi-na tsura o dasu na yo-!!*  
 suddenly weird face (obj.) don't put forth (emph.)  
 ビックリしたじゃないかーっ!!  
*Bikkuri shita ja nai ka-!!*  
 was startled isn't it so  
 Don't suddenly stick your weird face out! I was startled, wasn't I!  
 “Don't go suddenly poking your weird face out like that! You scared me to death!” (PL2)

© Toriyama Akira / Dr. Slump, Shueisha

**Frank:** ヒトのことがいえるツラかっ!!  
*Hito no koto ga ieru tsura ka!!*  
 person's thing (obj.) can say face is it  
 Is your face such that you can say things about other people?!  
 “You’re a fine one to talk, with a face like that!” (PL2)

- a small *tsu* at the end of a sentence indicates that the sound is cut off sharply or emphatically.
- *bikkuri shita ja nai ka*, lit. “I was startled, wasn’t I?” is a rhetorical question, and is actually a strong accusation: “I was really startled!! → you really startled me!!”
- *hito no koto ga ieru ka* is similar to the English “Who are you to talk?” Specific attributes, such as *tsura* in this case, can be added to indicate just what it is that gives the person no right to talk.

## “Make a big face” = Act like a bigshot

**Matsuda**, who works for the sports paper *Nikkan Every*, is trying in vain to keep reporters from other papers from getting information that will hurt judo star Yawara’s feelings.

© Urusawa Naoki / Yawara!, Shogakukan

**Reporter 1:** えっらそうに、日刊エヴリー!! おまえんところこそデッチあげの記事ばかりじゃねえか!!  
*Errasōni, Nikkan Evurī!! Omae n toko koso detchiage no kiji bakari ja nē ka!!*  
 looks/acts important (paper name) your place (emph.) made up (=) article(s) nothing but is it not  
 “Like you’re so important, *Nikkan Every*! You’re the ones who run nothing but phony stories!” (PL2)

**Reporter 2:** 最初に 柔さんのスクープしたからって、まだデカイ面する気か!!  
*Saisho ni Yawara-san no sukūpu shita kara tte, mada dekai tsura suru ki ka!!*  
 first (name-hon.) 's scoop did because (quote) still big/large face do intention (?)  
 “Just because you scooped the Yawara story first, you think you can keep on acting like some bigshot!?” (PL2)

**Sound FX:** ドドド  
*Do do do!*  
**Thud thud thud**  
 (sound of trampling feet)

- *omae n toko* is a contraction of *omae no tokoro*, “your place.”
- *ja nē ka* is a corruption of *ja nai ka*, “is it not?” — a rhetorical question.
- *dekai tsura (o) suru* is the rough, slang version of *ōki-na kao o suru*, lit. “make a big face,” which refers to someone who is acting superior/snobbish.

## Show your face

Terada's boss is being transferred to Osaka, and has requested that the company not give him a going away party. But Terada has worked under him for eight years, and can't let him go without at least saying farewell.

© Furuya Mitsutoshi / Bar Remon Hāto, Futabasha

Terada: 部長、おねがいします。  
*Buchō, o-negai shimasu.*  
 department chief please  
 "Please, Chief." (PL4)

ちょっとだけ顔見せてください。  
*Chotto dake kao misete kudasai.*  
 a little only face please show  
 Just show your face for a minute.  
 "Just let me see you for a minute."  
 (PL3)

- *buchō* are the "department/division" chiefs of a company. Typical corporate structure has the *shachō* ("company president") at the top, followed by a number of *buchō*, under whom are *kachō* ("section chiefs").
- *o-negai shimasu* is a polite way of making a request or asking a favor.

## Written all over your face

A few of the young boys have made a habit of frequenting a shop after school for a bite to eat. As it happens, the owner's daughter is cute and about their age. Today the boys run into a couple of their class rivals, who correctly deduce that the girl, rather than the food, is the real attraction.

Ryūnosuke: かくすなよ。  
*Kakusu na yo.*  
 don't hide (emph.)  
 "Don't (try to) hide it." (PL2)

顔に書いてあるよ。  
*Kao ni kaite-aru yo.*  
 face at/on is written (emph.)  
 "It's written all over your face."  
 (PL2)

- following the plain form of a verb with *na* makes a strong and rough command not to do the action, but since *yo* provides a friendly kind of emphasis, it softens the effect somewhat.

# オバタリアン OBATARIAN

by 堀田かつひこ / Hotta Katsuhiko

1 **Narration:** オバタリアンは本を買わずにメモる。  
*Obatarian wa hon o kawazu ni memoru.*  
 obatarian(s) as-for book (obj.) without buying take notes  
**Obatarians take notes instead of buying the book. (PL2)**

**In Book:** 肉ジャガの作り方  
*Nikujaga no tsukuri-kata*  
 meat potatoes of making method  
**Recipe for Nikujaga**

- *kawazu ni* is a classical Japanese form equivalent to *kawanaide*, the negative *-te* form of *kau* ("buy"). A verb in the *-zu ni* or *-naide* form followed by another verb implies "do the second action without/instead of doing the first action."
- *memoru* is a slang verb formed from the English word "memo" + the verb ending *-ru*. The noun *memo* in Japanese usually refers to notes you take for your own purposes rather than an informal letter sent to others. The proper verb forms are *memo (o) suru* ("make a memo/note") or *memo o toru* (literally "take memos/notes"), but *memoru* is used as a slang/colloquial equivalent.
- *nikujaga* is thin-sliced beef, potato chunks, and onions simmered in a soy and sake broth.

2 **Storekeeper:** まったく 図々しい。  
*Mattaku zūzūshii.*  
 (interj.) brazen/shameless/checky  
**"What nerve!" (PL2)**  
 まさか 一冊 まるごと 写す 気 じゃ...  
*Masaka issatsu marugoto utsusu ki ja...*  
 surely [not] I (count) wholly/entirely copy intention as-for  
**"Surely she doesn't intend to copy out the whole book." (PL2)**

- *mattaku*, literally meaning "completely/entirely," is often used as an exclamation/interjection of exasperation.
- *masaka* emphasizes a statement of disbelief/incredulity. For this use, the sentence typically ends in a negative conjecture (*nai darō/deshō*), so that is the ending implied here: ... *ja nai darō* = "surely isn't/doesn't..."
- *satsu* is the counter suffix for books. *Issatsu marugoto utsusu* ("copy one book in its entirety") is a complete thought/sentence modifying *ki* ("intent/intention").

3 **Sound FX:** スタスタ *Suta suta* (effect of walking briskly)  
**Storekeeper:** フン、さすがにそれはムリだと  
*Fun, sasuga ni sore wa muri da to*  
 hrumph (emph.) that as-for impossible is (quote)  
 思った ようだ な。  
*omotta yō da na.*  
 thought/realized it seems/appears (colloq.)  
**"Hrumph, it looks like even she realized that would be impossible." (PL2)**

- *fun* is a kind of "snort" of satisfaction.
- *sasuga ni* here gives special emphasis to the understood subject, *obatarian*: "even she..."
- quotative *to* marks *sore wa muri da* ("that is impossible") as the content of *omotta*, the plain/abrupt past form of *omou* ("think/realize").
- *yō da* after a verb means "it seems/appears" the action was done or will be done.
- the colloquial particle *na* expresses a kind of self-check/confirmation, like an English tag. "(it is,) isn't it/(that appears to be the case,) doesn't it?"

4 **Sound FX:** ガーッ  
*Gā!* (sound of copy machine motor)  
**Sign:** コピー / 一枚 10円  
*Kopii / Ichimai jūen*  
 copy 1 (count) ¥10  
**Copies / ¥10 each**

- *kopii*, the katakana rendering of English "copy," almost always refers to a "photocopy." The verb form *kopii suru* means "make a photocopy." *Utsusu* (above) can also refer to photocopying, but when used in isolation is more likely to mean "copy by hand."
- *-mai* is the counter suffix for flat items like paper/tickets/records/CDs/plates/etc.

# オバタリアン

## OBATARIAN

1

**Narration:** オバタリアンはグルメである。  
*Obatarian wa gurume de aru.*  
 obatarian(s) as-for gourmet is/are  
**Obatarians are gourmets.** (PL2)

**Sound FX:** キョロ キョロ  
*Kyoro kyoro* (effect of shifting/searching eyes)

**Sign:** ソース *Sōsu* **Worcestershire Sauce**

- *obatarian* has become a slang term for "selfish middle-aged woman."
- *gurume* is a katakana rendering of the word "gourmet."
- *de aru* is a more formal/literary equivalent of *da/desu* ("is/are").
- *sōsu*, from English "sauce," by itself refers to Worcestershire-type sauces; all other sauces have to be specifically named: *tabasuko sōsu* ("Tabasco sauce"), *tomato sōsu* ("tomato sauce"), etc.

2

**Obatarian:** ねえ、イカリはないの?  
*Nē, Ikari wa nai no?*  
 (interj.) (brand name) as-for not exist/have (explan.)  
**"Say, don't you have Ikari?"** (PL2)

**Storekeeper:** すいません。品切れです。  
*Suimasen. Shinagire deshite.*  
 (apology) out of stock is  
**"I'm sorry. It's out of stock."** (PL3)

- *nē* at the beginning of a sentence is used to get someone's attention, like "say/heh." It feels less formal than "excuse me," but not abrupt or rude.
- *Ikari* is one of the best-known brands of Worcestershire sauce in Japan.
- *suimasen* is a colloquial *sumimasen*, which can mean either "sorry/excuse me" or "thank you" depending on the context.
- *deshite* is the *-te* form of *desu* ("is/are"). Use of the *-te* form here can be seen either as marking the cause/reason for his apology, or simply as a way of softening the end of his sentence.

2

**Storekeeper:** こちらではいかがですか?  
*Kochira de wa ikaga desu ka?*  
 this direction with as-for how is it?  
**"How about this one?"** (PL3)

新製品で大変評判もよく...  
*Shinseihin de taihen hyōban mo yoku...*  
 new product is-and very much reputation/reception also good  
**"It's a new product and has been very well received."**

**Obatarian:** だめよ!! 昔からイカリと...  
*Dame yo! Uchi wa mukashi kara*  
 no good/won't do (emph.) our house as-for long ago from  
 ソースはイカリと...  
*sōsu wa Ikari to...*  
 sauce as-for (brand name) (quote)  
**"That won't do. At our house, from long ago, (it's been established that) our Worcestershire sauce is Ikari."**  
**"No way! We've always used Ikari at our house."** (PL2)

- *kochira* is literally "this direction/side," but it's actually just a polite way of saying "this/this one." Shopkeepers often use the direction words *kochira/sochira/tachira* when pointing out merchandise for their customers.
- *hyōban* literally means "reputation," referring to how something is being received by the public: *hyōban ga ii* = "is popular/being received well" and *hyōban ga warui* = "is unpopular/being received poorly."

4

**Storekeeper:** ご試食セールで半額ですが。  
*go-shishoku sēru de hangaku desu ga.*  
 (hon.)-trial eating sale is-and half price is but  
**"We're having an introductory sale, so they're half price."** (PL3)

**Obatarian:** 2本ちょうだい。  
*Nihon chōdai.*  
 2 (count) [please] give me/let me have  
**"I'll take 2."** (PL2)

- *chōdai* is an informal "(please) give me/let me have."

# べらぼうめい 父ちゃん

## Beranmei Tōchan

by 立花屋菊太郎 / Tachibanaya Kikutarō

1 **On Paper:** テスト  
*Tesuto Test*

**Tōchan:** もっと勉強 しなさいと えらくなれねいぞ。  
*Motto benkyō shinei to eraku narenei zo.*  
more study if don't do important can't become (masc. emph.)  
**"If you don't study harder, you'll never be anybody."**  
(PL2)

**Boy:** はい。  
*Ha-i. "Okay."* (PL2)

- *benkyō shinei* = *benkyō shinai*, the negative of *benkyō suru* ("study").
- *eraku* is the adverb form of *erai* ("eminent/important [person]"), and *narenei* = *narenai* ("can't become"), the negative potential ("can/able to") form of *naru* ("become").

2 **Kāchan:** やっぱり塾へ行かせないとだめかねい?  
*Yappari juku e ikasenai to dame ka nei?*  
after all suppl. classes to must make go ? (colloq.)  
**"After all, must we send him to a juku, do you think?"**  
→ **"Maybe we really ought to send him to a juku."**  
(PL2)

- *juku* refers to a wide variety of after-school and weekend academies that Japanese school children attend to supplement their studies.

3 **Tōchan:** うーん、そうだな。  
*U-n, sō da nā.*  
**"Hmm, I wonder."** (PL2)

**Kāchan:** でも、月に一万五千円ぐらいかかるからねい。  
*Demo, tsuki ni ichiman gosen-en gurai kakaru kara nei.*  
but month per ¥15,000 about costs so (colloq.)  
**"But it costs about ¥15,000 per month, so..."** (PL2)

- an elongated *ūn* is a pause sound implying one is considering how to answer.
- *sō da* is literally "it is so/that is right," but *sō da na* (or *nā*) is another expression implying one is considering how to answer/respond.

4 **Tōchan:** べらぼうめいっ。勉強できなくたって  
*Berabō-meī! Benkyō dekinakutatte*

**"That's ridiculous. There's any number of people who became important even though they did poorly in school."** (PL2)

**Boy:** さっきとやってることが反対だよ。  
*Sakki to itte-ru koto ga hantai da yo!*  
a while ago (comp.) what [you] are saying (subj.) is opposite (emph.)  
**"That's the opposite of what you said a minute ago."**  
(PL2)

- *dekinakutatte* is a colloquial *dekinakute mo* ("even if/though [they] cannot") from *dekiru* ("can [do]/be able to [do]"). *Benkyō (ga) dekiru* is literally "can study" but it actually means "do(es) well in school."
- *natta* is the plain/abrupt past form of *naru* ("become"). *Benkyō ga dekinakutatte eraku natta* is a complete thought/sentence ("became important even though [they] did poorly in school") modifying *hito* ("person/people").
- *ikura* is "how many/much" and *ikura mo* is "however many/whatever quantity" → "any number/quantity." *Irai!* is a strongly emphatic slang version of *iru* ("exist," for animate things).
- *to* marks the object of comparison in the expression ... *to hantai da*, so *sakki to ... hantai da* means "is the opposite of a while ago."

**1** **Tōchan:** 今朝 は トーストと コーヒーが いい な。  
*Kesa wa tōsuto to kōhī ga ii na.*  
this morning as-for toast and coffee (subj.) good/fine (colloq.)  
"I'd like toast and coffee this morning." (PL2)

**Kāchan:** おや、ずいぶん ハイカラ だ ねい。  
*Oya, zūibun haikara da nei.*  
oh quite/very modern/Western is/are isn't it/aren't you  
"My goodness, that's very modern (of you)." (PL2)

- ... *ga ii* is used to express one's choice/preference/selection.
- *oya* is an interjection of mild surprise.
- *haikara* is from "high collar." It came to mean "up-to-date/fashionable" around the turn of the century, when Western "high collar" fashions came to Japan. Ironically, *haikara* now has an old-fashioned ring for a word meaning "up-to-date," having been replaced by words like ナウい *nau* ("now-ish").

**2** **Tōchan:** でも なんとなく / みそ汁 が ねーと さびしい な。  
*Demo nantonaku / misoshiru ga nē to sabishii nā.*  
but somehow / miso soup (subj.) if don't have is lonely (colloq.)  
"But, somehow, without miso soup it feels like something's missing." (PL2)

**Sound FX:** パクパク ムシャムシャ

**Kāchan:** それじゃ 作る よ。  
*Sore ja tsukuru ya.*  
in that case will make (emph.)  
"Then I'll make some." (PL2)

- *nē* is a slang/dialect version of *nai* ("not exist/have"). The vowel combination *ai* changes to *ē* or *ei* in certain dialects and masculine slang.
- *to* after verbs and adjectives can give a conditional "if/when" meaning.

**3** **Tōchan:** うーん、やっぱり 朝 は みそ汁 だな。  
*U-n, yappari asa wa misoshiru da nā.*  
yes after all/really morning/breakfast as-for miso soup is (colloq.)  
"Yeah, for breakfast, misoshiru really is it." (PL2)

**Sound FX:** ズズーッ  
*Zuzu!* (sound of sipping his soup)

- *yappari* is a colloquial *yahari* ("after all/as expected" → "it really is so.")
- *asa* = "morning," or, when speaking of food, "breakfast." *Asa wa misoshiru da* looks like "morning is miso soup," but it's shorthand for *asa wa misoshiru ga ii*, "as for morning/breakfast, miso soup is good/to be preferred/best."

**4** **Tōchan:** みそ汁 だと メシ も 食べてえ な。  
*Misoshiru da to meshi mo kui-tē nā.*  
miso soup if is/have rice also want to eat (colloq.)  
"If it is miso soup, I want to eat rice, too."  
"If I have *misoshiru*, it makes me want some rice to go with it." (PL2)

**Kāchan:** それじゃ いつも と 同じ だ よ。  
*Sore ja itsumo to onaji da yo.*  
in that case always as same is (emph.)  
"Then it's the same (breakfast) as always." (PL2)

**Boy:** いってきまーす。  
*Itte kima-su.*  
will go and come "I'm going (to school)." (PL3)

- *kui-tē* is a slang/dialect version of *kui-tai*, the "want to" form of *kau* ("eat" — masculine, informal).
- *itte kimasu*, the PL3 form of *itte kuru*, is the standard "goodbye" used by a person leaving home for work, school, an errand, or some other outing.

- *tsumari* = "that is to say/in other words/i.e."
- *ore* is a rough/masculine word for "I/me."
- *ya nen* is a Kansai dialect equivalent of *da yo* ("is/are" + emph.), but *ya nen* is more freely used by female speakers than *da yo* is. For both *da yo* and *ya nen*, intonation makes the difference between a statement and a question.

**Mother:** それどないしたんや?  
Sore ga donai shita n ya?  
that (subj.) what/how did (explan.-?)  
"So what?" (PL2-K)

- *ochita* is the plain/abrupt past form of *ochiru* ("fall/drop"). *Ochita ringo* can refer either to an apple already on the ground or one that is still falling, since, in the latter case, the apple "has fallen" from the tree as soon as it leaves the branch.
- *mite* is the *-te* form of *miru* ("see/observe"). The tense of the *-te* form of a verb is determined by the end of the clause/sentence.
- *inryoku* ("gravity") is written with kanji meaning "pull" and "strength."
- *hakken shita* is the past form of *hakken suru* ("discover"), from *hakken* ("discovery").
- *donai* is dialect for *dō* ("what/how"), so *donai shita* = *dō shita* (*shita* is the past form of *suru*, "do"). *Sore ga dō shita* is an expression equivalent to "so what?/what's that got to do with it?"
- *ya* typically replaces *da* in Kansai speech. Asking questions with *ya* is very common among female speakers in Kansai, but asking questions with *da* in standard Japanese can sound a bit rough and is mostly masculine.

- *ya da* is a contraction of *iya da*, meaning "is disagreeable/unpleasant/embarassing." Its colloquial uses are many, including the equivalent of a school-girlish "Oh gross!"
- *hontō* means "truth," but with the intonation of a question it becomes "Is that true?/Really?"

 "Was there a girls' school near here?" (PL2)

- *doko no seifuku* is literally "uniforms of where," meaning "uniforms from/for what school."
- *ka na* asks a conjectural question, "I wonder where/what/how/etc."
- *kono* ("this") modifies *chikaku*, a noun referring to "the vicinity/area nearby," so *kono chikaku* = "this vicinity/near here."
- *joshi* = "girl(s)/female(s)," and *-kō* refers to 高校 *kōkō*, or more fully, 高等学校 *kōtō gakkō*: "high school" → *joshikō* = "girls' high school."
- *atta* is the past form of *aru* ("exist/be in a place"), and *kke* expresses an effort to recall something that's vague in the speaker's memory. He's trying to recall whether he has heard of there being a school in the vicinity.

before the first J-League game, generating such intense interest that 300,000 people applied for that game's 40,000 available seats.

### Regional identity

Despite the hype and hucksterism, J-League teams are less strongly identified with their sponsors than most baseball teams. In forming the J-League, Kawabuchi sought to change the image of soccer as a company game by dropping references to the sponsor in the team names, using only a reference to a city. That's the normal arrangement for American professional teams, but it met with resistance in Japan, where most teams have traditionally been defined by corporate rather than regional identity. Most of the twelve pro baseball teams, for example, do not include a city or region in their team name. But Kawabuchi got his way: all J-League team names include the home city rather than sponsors.

Surprisingly, not one team calls Tokyo home, although several are based in outlying cities such as Kashima in Ibaraki prefecture and Urawa in Saitama prefecture. The J-League has avoided one of the central economic problems of Japanese baseball: the Giants, the only team with "Tokyo" on its uniforms, generates almost as many fans as all the other teams put together. This dominance leaves other teams with few fans, and means that a series of victories over the Giants can cause a nationwide dip in product sales for the winning team's sponsor. Kawabuchi's organization gives every J-League team a clear regional identity and a strong base of local fans. To secure community roots and cultivate native talent, J-League teams are required to support local youth soccer clubs.

This strategy of cultivating local fans seems to work, because they're coming in droves. Attendance in the first year averaged more than 18,000 per game. A real J-League enthusiast is not a mere "fan": he or she is a *sapōtā* (サポーター, "supporter/booster"), a special breed found only in J-League stadiums. Baseball has fans, usually salarymen and OLs who sit in shirt sleeves and cheer in unison with megaphone-shaped noisemakers while their team is at bat. A really hard-core fan may wear a team-color *happi* coat. J-League supporters are something else altogether. In addition to the standard noisemaker-megaphone, their arsenal includes a complete team uniform, a full-size team flag, and face paint in team colors. Throughout a game, supporters chant, dance, and wave their flags in unison. Their spectacle rivals the game, which is probably for the best since it's unlikely that they see much of the game through all the waving flags.

### That foreign flavor

Most J-League team names come from the languages of South America and continental Europe. The Verdy Kawasaki name, for example, derives from the Portuguese word for green, the team color. Some teams use names that evoke the primary sponsor. All Nippon Airways sponsors a team called the Flügels, from the German word for wing. Mitsubishi Motors sponsors a team called the Red Diamonds, a reference to their company logo, although the team is usually called the Reds.

Other names are less direct, and show the Japanese knack for absorbing foreign words into the language. In Hiroshima, there's a team called Sanfrecce Hiroshima. The *san* part comes from the Japanese word for three, and *frecce* is the Italian word for arrow. The name means "three arrows," representing spirit, skill, and strength. Osaka has a team named

- *kokugo*, literally "national language," is the name used for the "language arts" stream of the Japanese school curriculum — i.e., the equivalent of what has traditionally been called "English" in American schools.
- *yatte* is the *-te* form of *yaru* (informal word for "do," or in this case "will do"), and following it is a different *yaru*, meaning "give to (someone)." When this second *yaru* comes after the *-te* form of a verb, it means "do (the action) to/for (someone)," so *yatte yaru* = "(I) will do (something) for you." In this case, though, he will actually be doing it for both of them.
- the suffix *-shū* refers to an "anthology/collection." *Mondai-shū* usually refers to a workbook, from which a worksheet of problems might be assigned. This seems to be the case here.
- *yatte kurenai* combines the *-te* form of *yaru* ("do") with the negative form of *kureru* ("give [to me]"). *Kureru* after the *-te* form of another verb implies the action will be done by someone else for the benefit of the speaker/subject. As a question, *yatte kurenai (ka)* makes an informal request, "Won't you . . . for me?" → "Would you . . . for me?" Once again, though, the friend would be doing it for both of them in this case.
- *ze* is a rough/masculine particle for emphasis.

- *omae* is a rough/masculine word for "you."

**Friend 3:** いい とも。  
*ii tomo.*  
 good/fine (emph.)  
**"Sure thing." (PL2)**

- *shakai* means "society," so as a school subject it refers to "social studies." The school subject is often called 社会科 *shakai-ka*, in which the suffix *-ka* denotes a specialization/field of study.
- *rika* refers to the natural sciences as a whole, and is what science classes in elementary and junior high school are called.
- *ka na* asks a conjectural question, "I wonder if . . .," so making a request using *ka na* can make the request sound a little less abrupt: "I wonder if you wouldn't . . . ?"
- the particle *tomo* is added to the end of sentences to strongly affirm/agree with what the other person has said or asked.

Gamba Osaka. *Gamba* is the Italian word for leg, and sounds like the Japanese verb *gambaru*, meaning to fight hard or persevere. The derivatives *ganbatte* and *ganbare* are traditional sports cheers. The Osaka club also considered the name Osaka Jōzu (大阪ジョーズ), or Osaka Jaws, which sounds like the Japanese word *jōzu* 上手, meaning skillful. The Osaka group clearly did its homework on multi-lingual word play.

In addition to foreign names, J-League teams have also adopted quite a few foreign players. They come from more than a dozen countries, including Brazil, England, Norway, Germany, and the Ukraine. Teams are allowed as many as five foreign players, although no more than three may be on the first-team roster. The troubles of foreign baseball players in Japan have been well documented in books and movies, but J-League soccer has been a rather different story.

In Japanese baseball, foreign players—mostly Americans—have never been completely welcome. Many foreigners complain of treatment as *suketto*, or helpers—i.e., not real players. Conventional wisdom among Japanese managers holds that rebellious and lazy American players disrupt the harmony of rigidly disciplined Japanese teams. A recent beer commercial plays on this stereotype by reversing the roles: it shows a locker room scene of a burly American player indignantly lecturing the importance of teamwork to his laid-back Japanese teammate, who calmly gulps his beer in defiance.

Instead of treating foreign players as *suketto*, J-League soccer has embraced them as skilled experts and teachers. Foreign baseball players are typically imported for size and strength, to smash home runs and hurl strikes. They often inspire fear and awe, but are rarely singled out as teachers or role models: their power can't be taught, and their knowledge and experience are often dismissed. But soccer is a different game, a game in which normal-sized players rely on skill and strategy. Japanese soccer has looked to foreign players for technique and experience, not for muscle. Many foreign soccer players have achieved respect and acclaim that foreign baseball players have never known. Two exceptional Brazilian-born soccer players, Lui Ramos and Zico, show the heights that foreign players can reach.

Lui Ramos has played soccer in Japan since 1977. He was a fixture on the Yomiuri corporate team, now Verdy Kawasaki of the J-League. In 1989 he became a Japanese citizen, changing his name to Ramosu Rui (ラモス瑠偉). Ramos' light-brown curls and scraggly beard make him easy to spot on the playing field, and he sits front and center in the team photo. He is one of the great

J-League stopwatch

stars of Japanese soccer and was a member of the Japanese team which fought unsuccessfully for a berth in this year's World Cup tournament. With the new popularity of the J-League, Ramos has many endorsements, and is a common sight on Japanese television.

Over his long career, Ramos has set deep roots in Japanese sports culture, exceptionally deep for a foreign-born athlete. His career stands in contrast to that of another great Brazilian player, Zico, who captured and broke the hearts of Japanese soccer fans in just a few seasons.

Zico—a nickname derived from Portuguese—came to Japan in 1991 at the age of thirty-eight to help Mitsubishi Metals' corporate team become the J-League's Kashima Antlers. Sports prognosticators were stunned when Zico led the long-shot Antlers to win the first stage of J-League's first season. Early this summer, just three years after arriving, Zico retired from Japanese soccer. Three years is a normal tour of duty for a foreign athlete in Japan, and most athletes leave with little or no fanfare. But there was nothing normal about Zico's retirement. Public reaction was tremendous.

After the final whistle blew for one of his last games, Zico ran to the cheering fans at one end of the field and threw his jersey into the crowd. They went wild. Running to the other end, he threw his shorts into the crowd. They went *really* wild. NHK sports cameras zoomed to the faces of heartbroken young women, rolling tears streaking the red team-color face paint that spelled his name, ジーコ. Fortunately he had the foresight to wear more than a jock under his shorts, or there might have been a riot.

But Zico's popularity extends beyond the millions of young women who ardently follow the J-League and its players. When Zico retired, Japanese bookstores were selling at least four books by or about him, including the titles *Jiiko no Riidā Ron* (ジーコのリーダー論, "Zico's Theory of Leadership") and *Kamisama Jiiko no Isho* (神様ジーコの遺書, "Esteemed Words of the God Zico"). Of course, foreign baseball players have also written popular books. Warren Cromartie's *Saraba Samurai Yakyū* ("Farewell Samurai Baseball," published in English as *Slugging It Out in Japan*) was a very popular book in Japan, but more for Cromartie's inside gossip than his theory of leadership.

Zico is clearly respected for his achievements and leadership, not just for locker-room storytelling. Shortly before Zico returned to Brazil, then-Prime Minister Hata awarded him the Prime Minister's Prize, making him the first foreigner to receive that award. To find a baseball player who has approached Zico's impact on Japan, it

Ōshima Tsukasa

### The manga

**Shoot!** tells the story of Toshi, Kenji and Kazuhiro—freshmen at Kakegawa High School and the newest members (along with two other freshmen, Nitta and Sasaki) of the school's well known soccer club. Toshi, Kenji and Kazuhiro (they generally call each other by their first names) once formed the core of a formidable junior high school soccer team, but at Kakegawa High, they are learning the hard way that high school soccer is a whole new ball game.

In this episode, the five freshmen are having their first practice with Kubo (referred to by all as Kubo-san), the captain and star player of the team, who last year led the Kakegawa soccer club to the Final Eight—an incredible accomplishment, since the club had been formed only six months earlier. Kubo has been in the hospital, and this is his first time back with the team since the freshmen boys joined. Unaware that Kubo would be there, Toshi has shown up late to practice: now he is watching from the sidelines, aghast, as his friends get trounced single-handedly by the great Kubo.

### The artist

At 24 years of age, Ōshima Tsukasa is a relative newcomer to the manga scene. But she has already made an impact, winning the Kodansha Manga Award in the boys' manga category (少年部門, *Shōnen Būmon*) for *Shoot!*, her debut work. The judges were most impressed by her ability to

portray the experiences of adolescence with such accuracy and sympathy even while maintaining the pace and excitement of a typical sports manga. Currently, Ōshima is in her third year of serializing *Shoot!* in *Shūkan Shōnen Magajin* (週刊少年マガジン).

Incidentally, "Tsukasa" is a masculine pen name. Ōshima's given name is Yoshiko.

Though English “catch up” can refer to the entire process of catching up, Japanese <i>oitsuku</i> refers to the moment when one actually “catches up to/ pulls even with” the object of one’s pursuit. For a “momentary verb” of this kind, adding <i>iru</i> to the <i>-te</i> form makes a past participle (“has –ed”) rather than a progressive (“is/are –ing”) verb.</li> </ul>

involvement with the magazine at that time was the most concrete outside factor in my decision. That, and a more nebulous knowledge that, what with the rising prominence of Japan in world economics, there was plenty of commercial translation out there to be done. But really, nothing *drew* me away; I was *driven* away by particular problems associated with the position I then held, and by my longstanding discomfort with the two-way pull of teaching and scholarship demands in academia—including its lack of respect for translation as a fully creditable scholarly activity. The demands of teaching had in fact left me with precious little time to translate. The

argument that had persuaded me to go into an academic career had proved false for me, so it was time to try something else; it was time to try returning to the course I had originally planned.

I expected to bone up on a specialty or two and become a regular commercial/technical translator, along with expanding my work for *Mangajin*, but as it happened, I got a commission to translate Ōoka Shōhei’s *Furyoki* (“POW Journal”), a very long novel that I’ve only recently finished. So between that and *Mangajin*, for the time being at least, I’ve remained a literary and cultural translator. The next project I’m planning is Shōno’s most important

novel, *Yūbe no Kumo* (“Evening Clouds”), but unless I can get some grant money for that, I may well be at the point where I need to diversify into some commercial area.

**Do you think you’ll ever go back to teaching?**

I enjoyed teaching a lot, but translation is really my first love. Under the right conditions, if I thought I could make the original argument that took me into teaching in the first place work for me, I might go back into the classroom. In the meantime, I like to think of *Mangajin* as my classroom and the magazine’s 30,000 readers as my students.

may be necessary to go all the way back to Babe Ruth. In 1934, shortly after his release from the Yankees, Ruth led an immensely popular seventeen-game all-star tour that inspired the beginning of Japanese pro baseball.

Zico's Theory of Leadership, by the respected former Antler

Japanese players in the J-League also lead a different life from their baseball counterparts. Most Japanese ballplayers are like salarymen in uniform: cogs in the machine of the sponsoring corporation. Many teams have rules about player conduct and grooming. Most players are very business-like on the field, and a neatly trimmed mustache is a bold symbol of individualism. There are a few new-generation ballplayers who show some flair, such as star outfielder Akiyama Kōji, who occasionally does a trademark running flip across home plate to punctuate a big home run. But Akiyama's antics are on the wild side of Japanese baseball, and they pale against the colorful J-Leaguers. When a J-League player scores a goal, his celebration may include jumps, flips, hip-wiggling, and waving hand gestures that defy polite description. Some J-Leaguers make National Football League touchdown celebrations look demure.

In the grooming department, most J-League players are reasonably clean-cut, but some are less conventional. Twenty-two year old Abe Yoshinori of Verdy Kawasaki has dyed hair and earrings. His 26-year-old teammate Kitazawa Tsuyoshi has hair that hangs near his shoulders. In Japanese baseball, those styles are as likely as multi-colored mohawks on salarymen.

**A new attitude**

The J-League's more relaxed attitudes about foreign players, flamboyant scoring celebrations, and radical hairstyles are all part of its carefully crafted image. J-League teams are not bur-

dened with the duty of representing the straight-arrow values of a single sponsoring company. The teams play to entertain the fans and make money, and they're doing both very well. J-League soccer is extremely popular with the *shinjinrui* (the "new breed"), Japan's fun-loving generation of teens and twenty-somethings who grew up during the prosperous 80s.

But Japan is a land of booms and fads, particularly among young people. The looming question is whether J-League popularity will last. One of the strongest factors in its favor is Kawabuchi's philosophy of local support, for every team, in the form of sponsorship, fans, and youth soccer clubs. In addition

to its top-down organization of marketing and promotion, the J-League has a grass-roots organization of civic supporters and upcoming players. Time will tell if those roots are firm.

Whether or not the J-League lasts, its explosive beginnings are already having an impact on the Japanese sports world. This summer, plans were announced for a new professional volleyball league, cleverly named the V-

League. If their approach is anything like the J-League's, the wave of marketing hype should break sometime soon.

# 夕焼けの詩<sup>うた</sup> *Yūyake no Uta*

## Part II

**西岸良平**  
Saigan Ryōhei

*Yūyake no Uta* is the title of a collection of manga from the larger work 三丁目の夕日 (*Sanchōme no Yūhi*, “Evening Sun Over Sanchōme”), a series that has been running in *Big Comic Original* since 1974 and continues to run today. Through detailed drawings and carefully conceived dialog, author Saigan Ryōhei lovingly portrays the everyday lives of everyday people in Japan in the late 1950s and early 1960s. Although there are some regular characters who appear throughout the series, most of the stories are self-contained episodes.

In the episode begun in *Mangajin* No. 38 and continued here, Saigan gives us a close-up look at the world of the movies in the early 1960s. All of the actors and movie titles cited are real. For the translated titles of films, we have consulted *Japan*, by Arne Svensson (*Screen Series*, Peter Cowie, ed., A. Zwemmer Limited, London/A.S. Barnes & Co. New York, 1971), as well as some additional reference materials. Where we weren't able to locate original English titles or official translations of Japanese titles, we have provided a literal rendering of the Japanese.

### A Word About the Title:

The kanji 詩 is actually read *shi*, and means “poem/poetry.” Here *furigana* is provided to give an alternative reading, *uta* (うた), which can refer to either a song or poem. “Sunset Song” seems a fitting translation for *Yūyake no Uta*, since “song,” like *uta*, can refer to either verse or musical compositions.

### 映画の世界 (*Eiga no Sekai*, “The World of the Movies”), Part II:

In Part I of *Eiga no Sekai*, Ippei is running out the door with his older brother, Roku, to the Sunset Cinema (夕日キネマ, *Yūhi Kinema*), while the boys' parents marvel at the frequency with which the two of them have been attending movies lately. Indeed, the entire episode has Ippei and Roku at the Sunset Cinema, seeing anything and everything the theater has to offer—from gangster films to monster movies to Walt Disney. Ippei is clearly a hard-core movie fan, undaunted by the fact that the film has a tendency to break halfway through the show, and that throngs of viewers make it hard for a little boy to see. He is delighted to have found the perfect chaperone in Roku. And Roku's motivation? In Part II, we learn the truth behind his sudden love for the movies.

**Roku:**  
*“Gennama ni Te o Dasu na” to “Hanzai-ō Kapone” sa.*  
 “‘Don’t Touch the Loot’ and ‘Al Capone, King of Crime.’” (PL2)

- *oniichan* is a polite but informal version of *niisan*, literally meaning “older brother.” Children often use *oniichan* to address/refer to older boys and young (unmarried) men they know relatively well.
- *gennama* is a slang word for *genkin* (“money/cash”), which is the proper reading for the kanji 現金.
- *te* = “hand” and *dasu* = “put out”; *te o dasu* is literally “put/reach out one’s hand,” which idiomatically means “touch/go after/meddle in.” *Na* makes a negative command, so *te o dasu na* = “don’t touch/keep your hands off.”

- 3 **Ipppei:**

**Roku:**  
*Ha ha ha, gennama da yo. O-kane no koto sa.*  
 “Hah hah hah, that’s ‘loot.’ It means ‘money.’” (PL2)

- *kendama* refers to a “cup and ball” toy of the kind pictured. Because he is not familiar with the word *gennama*, Ipppei hears the similar-sounding *kendama* and misunderstands the title.

- *mae kara kuru* is a complete thought/sentence (“come from in front [of us]” → “come from the other direction”) modifying *hito* (“people”).
- *kowai* = “scary/frightening,” *kao* = “face,” and *shite-(i)ru* is the progressive (“is/are -ing”) form of *suru* (“do/make”), so *kawai kao (o) shite-(i)ru* = “is/are making scary faces” → “have scary looks (on their faces).”

- *rōdo shō*, from English “road show,” when seen in movie advertisements, refers to the “exclusive engagement” of a movie at a major theater prior to the film’s general release. The name Yūyaku Theater here is intended to suggest a movie house in Yūrakuchō, near Ginza, which is home to quite a few major “road show” theaters.

2 **Characters on Screen:***Pera pera pera . . . / Pera pera.*

(effect of speaking a foreign language fluently)

- *pera pera* is normally used when a foreigner speaks Japanese fluently, or a Japanese speaks another language fluently, but here the implication is simply that the characters on screen are speaking English.

3 **Ipppei:***Okāchan ga tsurete kite kureru eiga, itsumo anmari omoshirokunai ya.***“The movies Mom brings me to are never very interesting.” (PL2)**

- *tsurete kite* is the *-te* form of *tsurete kuru*, “bring (someone) along.” *Kureru* after the *-te* form of another verb implies the action benefits/is done as a favor to the speaker/subject. *Okāchan ga tsurete kite kureru* is a complete thought/sentence (“Mom brings me along”) modifying *eiga* (“movie/film”).
- *itsumo* = “always,” so when followed by a negative it often becomes “never.”
- *anmari* is a colloquial *amari*, which before a negative means “not very.”
- *omoshirokunai* is the negative of *omoshiroi* (“amusing/fun/interesting”).

4 **Ipppei:***Fu fu fu, kō iu toki no tame ni himitsu heiki / Shinekoruto o motte kita n da.***“Heh heh heh, it’s for times like this that I brought along my secret weapon, the Cine-Colt.” (PL2)**

- *no tame ni* is literally “for the purpose of” → “for.”
- *motte kita* is the plain/abrupt past form of *motte kuru*, “bring (something) along.”

5 **Sound FX:***Pa! Kachi!*

(abrupt/sudden effect, and click of trigger-switch)

**Title:***Maboroshi Tantei***Phantom Detective**

- *pa!* is used for a wide variety of rapid/abrupt actions, including a light coming on or going out. Here it's the effect of the image suddenly appearing.

- *utsushite* is the *-te* form of *utsusu* (“show/project [an image]”), and *yare* is the abrupt command form of *yarau*, which after the *-te* form of a verb can mean either “do for” or “do to” someone.

*Norimono*  
 Rides

- *mō ii* is literally “already good/fine,” meaning “that’s enough.” In this case adding the conjunctural *desho* essentially makes it a question: “that’s enough, isn’t it?/you’ve had enough, haven’t you?”
- *Kachi-kachi Yama* and *Issunbōshi* are the titles of well known Japanese folk tales. The scenes pictured in the previous two frames are of “Little One Inch” going down the river in a soup-bowl boat with a chopstick oar, and of him getting ready to subdue a giant *oni* (“ogre”) with his needle sword.
- *norimono* here refers to “kiddie rides.” This is a small “amusement park” for kids on the roof of a department store.

- 4 **Ippei:**  
*Eiga no aida, otonashiku shite-tara, depāto no okujō de asonde ii tte itta ja nai ka.*  
 “You said if I behaved myself during the movie I could play on the roof of the department store.” (PL2)

**Mother:**  
*Mō osoi kara kaimono shite kaeru no yo.*  
 “It’s getting late, so we need to do some shopping and go home.” (PL2)

- *otonashiku* is the adverb form of *otonashii* (“quiet/meek/good tempered/obedient”), and *shite-tara* is a conditional “if” form of *shite-(i)ru*, from *suru* (“do”). *Otonashiku suru* means “be good/obey.”
- a verb ending with *-de/-te (mo) ii* implies the action is/will be permitted/granted.
- the question *ja nai ka* (“is it not/did you not?”) is strictly rhetorical. He’s in effect accusing her of going back on her word.

- 5 **Ippei:**  
*Kaimono suru nara ii ya. / Ikō, ikō.*

 “Sheesh, because it’s like this when I come with Ippei (it’s exasperating)!”  
 “Sheesh. It’s always like this when I come with Ippei!” (PL2)

- *ya da* is a contraction of *iya da*, meaning “is disagreeable/unpleasant” — an expression for indicating one’s dislike of something.
- *mattaku* (literally “completely/entirely”), is often used as an exclamation of exasperation.
- *to* after a non-past verb makes a conditional “when” meaning. *Kore da kara* (literally “because it is this”) after a conditional form often implies disgust/disappointment/exasperation with the described action.

1 **Sign:** (partly obscured)  
*Mishin Hanbai / Uonome Mishin*  
**Sewing Machine Sales / Uonome Sewing Machines**

- when English “machine” is rendered as ミシン (*mishin*), it specifically means “sewing machine”; in other cases the word is rendered マシン (*mashin*) or マシーン (*mashiin*). *Uonome* (lit. “fish eyes”) is a play on the real sewing machine brand name *Janome* (lit. “snake eyes”).

2 **Friend:**  
*Omoshirokatta eiga wa nē / yappari*  
 “*Gojira no gyakushū*” *sa*.

‘The movie that was fun was, well, after all, ‘*Godzilla’s Counterattack*.’”

‘The movie I liked best was, definitely, ‘*Godzilla’s Counterattack*.’” (PL2)

*Angirasu mo deta shi.*

“Especially since *Angirasu* appeared, too.” (PL2)

- *yappari* is a colloquial *yahari*. “as you might expect/after all/in the end.” It sometimes has the feeling of “definitely/for sure.”
- *shi* is most commonly thought of as an emphatic “and/and besides/and moreover,” but here it’s an emphatic “since/because” → “especially since.”
- *sa* is used for emphasis in informal speech, mostly by males. It often takes the place of *da/desu* (“is/are”).

3 **Ippai:**  
 “*Kaijū Baran*” “*Matango*” *mo yokatta yo*.  
 “‘*Varan the Unbelievable*’ and ‘*Matango, Fungus of Terror*’ were great, too.” (PL2)

“*Kyōfu no Ekitai Ningen*” *ni* “*Uchūjin Tokyō ni Arawaru*” *mo*.

“And ‘*The Terrifying Liquid Man*’ and ‘*Space Aliens Invade Tokyo*,’ too.” (PL2)

- *Daikaijū Baran* is the correct title of the first film, literally “Great Monster *Varan*.”
- *arawaru* is an archaic form of *arawareru* (“appear/show up”).

4 **Boys:**  
*Gaikoku no de wa “Amazon no Hangyōjin” ga kowakatta nā.*

“Among foreign films ‘*Creature from the Black Lagoon*’ was really scary.” (PL2)

*Ato*, “*Hōshanō Ekkusu*” *ni* “*Tōmei Ningen*,” “*Uchū Sensō*.”

“Also, ‘*Radioactive X*,’ ‘*The Invisible Man*,’ and ‘*Battle in Outer Space*.’” (PL2)

- *no* here implies *no eiga*, and *gaikoku no eiga* = “foreign film(s).” *No* between two nouns makes the first noun into a modifier for the second, and where context makes the meaning clear, the second noun can be left understood like this.
- *kowakatta* is the past form of *kowai* (“scary/frightening”).
- *ato*, literally “after,” often means “also/and besides that/as for the rest.”

*Tobidasu!* / *Surii-dii eiga*. / *Sanjigen rittai!*  
 It leaps out at you! / A 3D Film. / Three dimensional!

*Gaikotsu-men: Kyōfu no Taiken!*  
**Skullface: A Terrifying Encounter!**

- *jigen* = “dimension,” so *sanjigen* = “three dimensional”; *rittai* means “solid” as opposed to “flat/planar,” so it also essentially means “three dimensional.”
- *taiken* refers to a “personal/first hand experience” → “encounter.”

6 **Friend:**  
*He~! Rittai eiga da tte sa.*  
 “Wow! It says it’s a three-dimensional film.” (PL2)

**Ippai:**  
*Hontō ni tobidasu no ka nā!*  
 “I wonder if it really leaps out at you?” (PL2)

- *hē* is a light exclamation, like “Gee!/Wow!/How about that!” — showing that the speaker is impressed.

- 1 **Ippei:**  
*Nozoki megane de miru to ningyō-geki ya yūenchi no shashin nanka ga rittai ni mieru no ga aru kedo,*  
 “There are pictures of puppet shows and amusement parks and things that look three-dimensional when you look at them through a ViewMaster, but . . .”

*are to onaji ka na?*

“I wonder if it’s the same as that?” (PL2)

- *ningyō-geki ya yūenchi no shashin ga rittai ni mieru* is a complete thought/sentence (“pictures of things like puppet shows and amusement parks look three-dimensional”), and *no* is a “nominalizer” that turns the entire thought/sentence into a noun; *ga* then marks that noun as the subject.

- 2 **Friend 2:**  
*Rittai eiga nara mō, ore mita yo.*  
 “I already saw the 3D movie.” (PL2)

*Tennen-shoku ja nakatta kedo sa . . .*

“It wasn’t in full color, but . . .”

- *nara* after a noun is a conditional “if it is” — implying “if it is X you’re talking about, then . . .” It’s often essentially similar to *wa* (“as for X”).
- in spite of the periods, this sentence continues through the first 2 speech balloons in the next frame.

- 3 **Friend 2:**  
*aka to ao no serohan no hatte aru megane o kakeru to ne . . .*  
 “when you put on glasses with red and blue cellophane pasted in, . . .”

*eiga ga tobidashite mieru n da ze.*

“the movie appears to be leaping out.”

“the movie looks like it’s leaping out at you.” (PL2)

- Ippei:**  
*Fūn.*  
 “Really?” (PL2)

- Friend 2:**  
*Hora, mae ni manga zasshi no furoku ni tsuite kita rittai manga to onaji sa.*  
 “You know, it’s the same as the 3D manga that once came as a special insert in the manga magazine.” (PL2)

- Arrow in Balloon:**  
*Aka to ao de zurashita e o insatsu suru.*  
 (They) print shifted pictures in red and blue.  
 (They) print the picture twice, in red and blue, with the image slightly shifted. (PL2)

- *aka to ao no serohan no hatte aru* is a complete thought/sentence (“red and blue cellophane [lenses] have been pasted”) modifying *megane* (“glasses”). The first *no* makes *aka to ao* into a modifier for *serohan* (“cellophane”), and the second marks *serohan* as the subject, like *ga* (this *ga* often changes to *no* in modifying clauses).
- *tobidashite* is the *-te* form of *tobidasu* (“jump/leap out”), the *-te* form here making an adverb for *mieru* (“can see”).

- *fūn* is an interjection showing interest/understanding: “Really?!/Oh yeah?!/I see.”
- *furoku* refers to “supplements/inserts” that are sometimes included with magazines — especially children’s manga magazines.
- *tsuite* is from *tsuku* (“be attached”); *tsuite kita* = “came attached” → “came with.”
- *zurashita* is the plain/abrupt past form of *zurasu* (“to shift/slide sideways”).

- 4 **Ippei:**  
*Rittai eiga ka. Omoshirosō da nā.*  
 “A three-dimensional movie, huh. Sounds like fun.” (PL2)

*Sassoku oniichan ni tanonde misete morao to.*

“I’m gonna ask Roku right away, and get him to take me.” (PL2)

- *omoshirosō* comes from *omoshiroi* (“amusing/fun”). This *-sō da* ending of an adjective implies “sound/looks like it is/will be.”
- *misete* is the *-te* form of *miseru* (“show”), and *morao* is a shortened *morao*, the volitional form of *morau* (“receive”). *Morao* after the *-te* form of another verb implies the action is/was/will be done by someone else for the benefit of the speaker/subject, either spontaneously or by request. When the volitional form is used, it implies “will ask (someone) and get (him/her to do the action).”

(continued on next page)

- 1 **Ippe:**  
*Che! Uso tsuita na. / Zenzen tobidashite nanka inai ja nai ka.*  
 “Darn it! He lied! / It doesn’t leap out at all.” (PL2)

- *che!* is an exclamation of disgust/chagrin, a little rougher sounding than “rats!/dang!/shoot!/sheesh!” but not obscene.
- *uso* = “lie,” and *tsuita* is the plain/abrupt past form of *tsuku*; *uso (o) tsuku* means “lie” or “tell a lie.”
- *tobidashite* is the *-te* form of *tobidasu* (“jump/leap out”), and *tobidashite . . . inai* is the negative form of *tobidashite-iru* (“is leaping/jumping out”). *Nanka* is a colloquial *nado* (“things like/do things like”), but inserting it like this mainly gives emphasis — in this case emphasizing the speaker’s disappointment/disgust.
- *ja nai ka* is a rhetorical question, expressing strong disappointment/irritation.

- 2 **Roku:**  
*Sore ja megane ga hantai da yo.*  
 “If it’s that, your glasses are backwards.”  
 “You’ve got your glasses on backwards.” (PL2)

*Hidarime ga ao de migime ga aka su.*  
 “The left eye is blue, and the right eye is red.” (PL2)

- *sore* (“that”) here refers to the way Ippei is wearing his glasses, so *sore ja* essentially means “if you wear them like that.”
- *hantai* = “reversed/backwards”

- 3 **Sound FX:**

*Wā! Kyā!*

**Yikes! Aaack!**

**Sign:**

*Kin'en* No Smoking

**Ippe:**

*Wa! Hontō da! Tobidashite-ru!*  
 “Wow! It’s true! It leaps off the screen!” (PL2)

- *tobidashite-ru* is a contraction of *tobidashite-iru*, from *tobidasu* (“jump/leap out”).

- 4 **Ippe:**  
*Omoshirokattu kedo me ga tsukareta yo.*  
 “That was amusing/fun, but my eyes became tired.”  
 “That was great, but it really strained my eyes.” (PL2)

**Sound FX:**

*Ji ri ri ri ri ri*

**Rinnng** (bell for start of next show)

**FX:**

*Gan gan* (effect of pounding headache)

- *tsukareta* is the plain/abrupt past form of *tsukareru* (“become tired”).

- 5 **Ticket Lady:**  
*Arigatō gozaimashita.*  
 “Thank you for coming.” (PL4)

(continued from previous page)

- 5 **Billboard:**  
*Gaikotsu-men / Niku no Rō-ningyō / Binsento Puraisu*  
 Skullface / House of Wax / Vincent Price

- 5 **Sound FX:**  
*Ji ri ri ri ri ri ri*  
**Rinnng** (sound of bell signaling the impending start of the next show)

*Jii*

**Whirrr** (sound of projector, presumably just getting started — since the bell is still ringing)

*Mogu mogu*  
 (effect of chewing)

**Sign:**

*Deguchi* Exit

## 1 Roku:

Ano . . . mae ni ita onna no hito wa dō shita n desu ka?

“Uhh, excuse me . . . what happened to the girl who was here before?” (PL2)

Hora, chotto Asaoka Ruriko ni nite-iru . . .

“You know, the one who looks a little like Asaoka Ruriko.” (PL2)

- *ano* is a shortened *anō*, which is a hesitation word similar to “uhh/um.” It’s often used to get someone’s attention, essentially like “Excuse me.”
- *ita* is the plain/abrupt past form of *iru* (“exist/be [in a place]”). *Mae ni ita* can mean either “was in front of” or “was here before,” in this case the latter. *Mae ni ita* modifies *onna no hito* (“girl/woman” — literally “female person”).
- *hora* is often used to call a person’s attention to something, like “here/look/see/watch”; when calling attention to something abstract/not present, it’s more like a “you know.”
- Asaoka Ruriko is an actress who became very popular in the late 50s and early 60s; she remains popular today.
- *nite-iru* = “resembles/looks like”

## 2 Ticket Lady:

Ā, ano ko dattara, senshū yameta wa yo.

“Oh, that girl quit last week.” (PL2)

## Roku:

E! Yameta?

“What? She quit?” (PL2)

- *dattara* is a conditional “if it is/was”; like *nara* above, it literally implies “if it is X you’re asking about,” and can be thought of as essentially like the topic-marker *wa* (“as for X”).
- *yameta* is the plain/abrupt past form of *yameru* (“quit/resign”).

## 3 Ticket Lady:

Eiga sutā ni naritakute hitori de dete kita rashii kedo, kekkyoku dame de ne.

“She apparently came (to Tokyo) alone, wanting to become a movie star, but it didn’t work out for her in the end. (PL2)

Hansamu na daigakusei to issho ni kurashite-ta kedo, sore mo wakarete.

“She was living with a handsome student, but she broke up with him, too.” (PL2)

Yume yaburete kuni ni kaetta n ja nai ka ne, kinodoku ni.

“I suppose she went back home with her dreams shattered, the poor girl.” (PL2)

- *dete kita* is the plain/abrupt past form of *dete kuru* (“come out”), here implying “come out of the country into the city” → “came to Tokyo.”
- the kanji 故郷 (meaning “birthplace/native place/old home town” and more properly read either *kokyō* or *furusato*) clarify the meaning of *kuni* (“home town”).

## 4 Sound FX:

Zū! (sound of steady downpour)

## FX:

Gakkuri (effect of being disappointed)

## 5 Narration:

Roku-san no o-meate wa dōyara Yūhi Kinema no mogiri no onna no ko datta yō da.

Roku-san’s real purpose (for coming) was apparently (to see) Sunset Cinema’s ticket girl.

Roku’s real interest had apparently been the ticket girl at Sunset Cinema. (PL2)

Sore irai, Roku-san no eiga-zuki wa kage o hisomete shimatta.

After that, Roku’s great love of movies vanished without a trace. (PL2)

- *meate* = “purpose/aim”; the honorific *o-* is often added even in informal speech.
- *dōyara* typically pairs up with a conjectural form later in the sentence (here, *yō da*) for the meaning “most likely/apparently.”
- *hisomete* is the *-te* form of *hisomeru*, and *kage o hisomeru*, literally something like “conceal one’s shadow,” is an expression that means “vanish/disappear” — used not only of people but also of abstractions like *eiga-zuki* (“fondness for film”). *Shimatta* after a *-te* form has several meanings, but in this case it implies the action took place thoroughly/completely.

- 1 **Ippei:** (thinking)  
*Oniichan, konogoro chittomo eiga ni tsuretette kurenai nā.*  
 “Roku never takes me to the movies any more.” (PL2)

**Signs:** (partially obscured)

*Sakai Yōhin (Ten)*  
**Sakai Haberdashery**

*Kitte / Tabako*  
**Stamps / Cigarettes**

- *chittomo* is a colloquial/slang equivalent of *zenzen*, which combines with a negative later in the sentence to mean “not at all.”
- *konogoro* = “recently/these days” → “any more.”
- *tsuretette* is a contraction of *tsurete itte*, the *-te* form of *tsurete iku* (“take [someone] along”), and *kurenai* is the negative form of *kureru*, which after the *-te* form of another verb implies the action is done for the benefit of the speaker/subject.

- 2 **Friend:**  
*Ōi, Yū-chan chi de eiga yaru tte sa!*  
 “Hey, Yū-chan said (he’s) gonna show a movie at his house!” (PL2)

- *oi* is an abrupt “hey!” or “yo!” for getting someone’s attention, and *ōi*, with a long vowel, is for trying to get the attention of someone relatively far away.
- *Yū-chan chi* is a colloquial contraction of *Yū-chan no uchi*, “Yū-chan’s house.”
- *de* marks the location where an action takes place/will take place.
- *yaru* is an informal word for “do,” so *eiga (o) yaru* is literally “do a movie” → “show a movie.”
- *tte* is a colloquial equivalent of *to*, to mark a quote.

- 3 **Sound FX:**  
*Kasha kasha kasha*  
 (whirring of film through projector)

- 4 **Sound FX:**  
*Kasha kasha kasha*  
 (whirring of film through projector)

- 5 **On Billboard:**  
*Burū Hawai / Erubisu Puresurii*  
**Blue Hawaii / Elvis Presley**

**Maruei Signboards**

**Over Ticket Window:** (partially obscured)  
*Ryōkin(-hyō) / Otona / Gakusei / Shōnin*  
**(Admissions) Fee Chart / Adults / Students / Children**

**Lower Right:** (partially obscured)  
*Akimoto Den(ki)*  
**Akimoto Appliances**

**Lower Left:**  
*Honjitsu Kyūkan*  
**Closed Today**

- a kanji inside a circle is often (though not always) read *maru-*, so we’ve read the circle with 映 (*ei*) inside it as *Maruei*, which could be either the official name or a nickname for the company. Since *ei* is the first kanji in *eiga* (“movie/film”), we gather that this sign painter works for a company specializing in movie billboards.
- *ryōkin* = “fee/fare” and *hyō* = “chart/table/schedule.”
- the word 小人 *shōnin* for “children” is restricted to schedules of admission fees and transportation fares. These same kanji can be read *kobito*, in which case they mean “dwarf/midget,” or *shōjin*, in which case they mean “insignificant/small-minded person.”
- *honjitsu* sounds more formal than *kyō* (“today”); it’s the preferred word for “today” on signs/fliers and in public announcements.
- *kyūkan* is written with kanji meaning “rest” and “hall,” and is the word for “closed” used by public halls (*kaikan*), theaters (*eigakan*), museums (*hakubutsukan*; *bijutsukan*), aquariums (*suizokukan*), and any other building with a name ending in *-kan*.

# ナニワ 金融道

青木雄二

# Naniwa Kin'yūdō

by Aoki Yūji  
Part 6

## The series:

*Naniwa Kin'yūdō* first appeared in Kodansha's *Weekly Comic Morning* (週刊コミックモーニング) in 1990. It was an immediate hit and has run continuously ever since. The appeal of this series seems to be a combination of the subject matter (the unethical dealings of an Osaka loan/finance company), the gritty Osaka dialect used by most of the characters, and the rough but oddly detailed style of drawing.

## The title:

*Naniwa* (written here in katakana ナニワ, but sometimes written with the kanji 浪花 or 浪速) is an old name for the Osaka area, where this series is set. *Kin'yū* (金融) means "money/finance," and the ending *dō* (道) written with the kanji for "road/path," can be thought of as meaning "the way of . . ." Given the content of the stories, the title could be rendered as "The Way of the Osaka Loan Shark."

## The story so far:

Our hero, Haibara Tatsuyuki, is a new hire at a somewhat shady loan company called Empire Finance, Inc. He is put to work cold-calling Osaka-area construction companies in an effort to lure them into high-interest loans.

Most of the people who answer his calls are hostile and rude, but then Haibara gets lucky. The owner of Takataka Construction, Takahashi Kunimasa, inquires about interest rates.

Haibara passes the phone to his skillful supervisor, Kuwata, who learns that Takahashi needs a loan of ¥3 million by the next afternoon. Kuwata cleverly explains the interest in a way that sounds quite reasonable but actually works out to the exorbitant rate of 42% a year. Takahashi raises no objections to the terms, so Kuwata fills out a loan application over the phone, discovering that Takahashi has a homemaker wife and a daughter, Masako, who works at the ward office.

Kuwata and Haibara check on Takahashi's financial situation and find that he is deeply in debt. The company's

shachō agrees to lend the money only if Kuwata can convince Takahashi to have his daughter cosign. "We can get our money back out of her severance pay if nothing else," he notes.

Kuwata waits until the next morning to call Takahashi, and informs him that the money can only be lent with Masako as cosigner. Needing the money by 3:00 that afternoon, the desperate man finds himself with his back to the wall.

- 1 **Haibara:** さすが 桑田さん。 みごと でした ねー。  
*Sasuga Kuwata-san. Migoto deshita nē.*  
 fitting (name-hon.) skillful/brilliant was (colloq.)  
**“True to form, Mr. Kuwata, that was masterful!” (PL3)**
- *migoto* comes from *miru* (“see”) and *koto* (“thing”; *k* changes to *g* for euphony), and implies “something to see”; *migoto deshita* is the PL3 past form of *migoto da* = “it’s (really) something to see” → “that’s/it’s beautiful/fine/brilliant/masterful/splendid/etc.” *Migoto!* can also be used by itself as an exclamation, “brilliant!/splendid!”
  - *sasuga* implies the action (i.e., pushing the loan through by getting Takahashi’s daughter as a co-signer) was “fitting for/what one might expect of” Mr. Kuwata, with a tone of admiration.
- 2 **Kuwata:** 貸す となったら 銀行 でも きたない もん やで。  
*Kasu to nattara ginkō de mo kitanaī mon ya de.*  
 lend/loan if comes to bank(s) even dirty thing (is-emph.)  
**“When it comes to (landing) loans, even banks play dirty.” (PL2-K)**
- *nattara* is a conditional “if/when” form of *naru* (“become”); ... *to nattara* = “if it becomes ... /when it comes to ...”
  - *mon* is a contraction of *mono* (“thing”).
  - *ya de* is a Kansai equivalent of *da ya* (“is/are” + informal emphasis) or *da ze* (“is/are” + rough/masculine emphasis).
- 3 **Kuwata:** 日本 は 見つからな なら 何 を しても かまへん 国 や。  
*Nihon wa mitsukaranandara nani o shite mo kamahen kuni ya.*  
 Japan as-for if not seen/caught what (obj.) even if do not matter/don’t care country is  
**“Japan is a country where it doesn’t matter what you do if you don’t get caught.”**  
**“Japan is a country where you can do anything you want so long as you don’t get caught.” (PL2-K)**
- Kuwata:** 金持ち になりさえ すれば すべて が 許される。  
*Kanemochi ni nari sae sureba subete ga yurusareru.*  
 wealthy to become (emph.) if do all/everything (subj.) is permitted  
**“If you just become wealthy, all is permitted.” → “As long as you have money, anything goes.” (PL2)**
- *mitsukaranandara* is a dialect contraction of *mitsukaranakattara*, a past conditional “if/when” form of *mitsukaranai* (“not be found/not be found out”), from *mitsukaru* (“be found/found out”).
  - *shite* is the *-te* form of *suru* (“do”), and *nani o shite mo* (lit. “even if you do what”) is an expression for “whatever you do/no matter what you do.” *Kamahen* is Kansai dialect for *kamawanai* (“don’t care/doesn’t matter/is permitted”).
  - *mitsukaranandara nani o shite mo kamahen* is a complete thought/sentence (“if you don’t get caught it doesn’t matter what you do”) modifying *kuni* (“country/nation”).
  - *ya* typically replaces *da* (“is/are”) in Kansai dialect.
  - *kanemochi* literally means “money holder/holding” and refers either to the state of being wealthy, or to a wealthy person.
  - ... *ni nari sae sureba* is essentially an emphatic conditional (“if/when”) form of ... *ni naru* (“become”).
  - *yurusareru* is the passive form of *yurusu* (“permit/approve”).
- 4 **Kuwata:** ワシ、毎月 きちんと 10万円 ずつ 定期 預金 したる ん やで。  
*Washi, maitsuki kichin-to jūman-en zutsu teiki yokin shitoru n ya de.*  
 I/me every month regularly ¥100,000 each time deposit savings am doing (explan.) is (emph.)  
**“I am depositing ¥100,000 in time savings every month without fail.”**  
**“(Believe it or not,) I always deposit ¥100,000 in time savings every month.” (PL2-K)**
- *washi* is a word for “I/me” used mostly by middle-aged and older men. *Wa*, to mark *washi* as the topic of the sentence, has been omitted — as is often done in colloquial speech.
  - *kichin-to* is an adverb with a range of meanings, all essentially implying that the action is done the way it should ideally/ properly be done: “neatly/thoroughly/precisely/regularly/punctually/etc.”
  - *shitoru* is a contraction of *shite-oru*, equivalent to *shite-iru*, the progressive (“is/are -ing”) form of *suru* (“do”). *Suru* after a noun associated with an action turns the noun into a verb, so *teiki yakin suru* = “make a time deposit.”
  - *n* is a contraction of explanatory *no*.
  - the emphatic *de*, like standard Japanese *ya* and *ze*, is often used when the speaker volunteers information only he knows. The feeling can range from “For your information/I’ll have you know ...” to “You may not be aware, but ...” to “Believe it or not ...”
- 5 **Kuwata:** どや? 意外 やろ?  
*Do ya? Igai yaro?*  
 what/how is unexpected/surprising isn’t it  
**“What do you think? I bet you’re surprised.” (PL2-K)**
- Haibara:** 感心 しました。  
*Kanshin shimashita.*  
 admiration did  
**“I’m impressed.” (PL3)**
- *do ya* is dialect for *dō da*, “what/how is it?” — in this case meaning “what do you think?/how does that grab you?”
  - *yaro* is dialect for the conjectural *darō*, here being used as a question, “isn’t it?” *Igai yaro* = “Surprising, isn’t it?” → “You’re surprised, aren’t you?”
  - *kanshin* is a noun referring to feelings of “admiration,” and *kanshin suru* is its verb form, “admire/be struck with admiration/be impressed.” *Shimashita* is the PL3 past form of *suru*.
- 6 **Kuwata:** 将来 独立する 時 これ が 銀行 に対する 信用 になる ん やで。  
*Shōrai dokuritsu suru toki kore ga ginkō ni taisuru shinyō ni naru n ya de.*  
 future become independent time/when this (subj.) bank face/facing trust/credit to becomes (explan.) is (emph.)  
**“In the future, when I go independent, this becomes trust in facing the banks.”**  
**“In the future when I strike out on my own, this will be the basis for credit in my dealings with banks.” (PL2)**
- *toki* = “time,” but directly after a verb, it means “when (the action takes/took place).”
  - *taisuru* basically means “face/be on opposite sides,” and *ni* marks the object faced. *Ginkō ni taisuru* = “(in) facing the bank(s)” → “in (my) dealings with the bank(s).”

**Haibara:** さっきの1万円、先方に届けるお金じゃなかったんですか?  
*Sakki no ichiman-en, senpō ni todokeru o-kane ja nakatta n desu ka?*  
 a while ago 's ¥10,000 other party/client to deliver (hon.)-money was not (explan.) is/are (?)  
**“Wasn't that ¥10,000 just now (part of the) money (we're supposed) to deliver to the client?”**  
 (PL3)

**Kuwata:** 見とったんか。  
*Mitotta n ka.*  
 were watching (explan.-?)  
**“Were you watching?” → “So you saw that, did you?”** (PL2)

- *senpō* is one of the most common ways of referring to “the other party” in a business deal/relationship: “client.” *Senpō ni todokeru* is a complete thought/sentence (“[we] deliver to the client”) modifying *o-kane* (“money”); “money to be delivered to the client.”
- *ja nakatta* is the past form of *ja nai* (“is not”), and *n desu ka*, with explanatory *n(o)*, asks for an explanation.
- *mitotta* is a contraction of *mite-otta*, past form of *mite-oru*, which is equivalent to *mite-iru* (“is/are watching”).

15

**Haibara:** だいじょうぶですか、そんなことして。  
*Daijōbu desu ka, sonna koto shite.*  
 all right/safe is it? that kind of thing to do  
**“Is it really all right — doing a thing like that?”** (PL3)

- *daijōbu* means “all right/okay” in the sense of “no cause for concern.” Using it as a question implies there is cause for concern: “Is it okay?/is it safe?/are you all right?/etc.”
- *shite* is the *-te* form of *suru* (“do”). The *-te* form is often used to indicate the cause/reason for what follows, but in this case the syntax is inverted. Normal order would be *sonna koto shite daijōbu desu ka?*, with *sonna koto shite* indicating the reason for his asking *daijōbu desu ka?*

16

**Kuwata:** さきほど「見つからなったらすべてが許される」と言ったやろ。  
*Sakihodo “Mitsukaranandara subete ga yurusareru” to itta yaro.*  
 a while ago if not seen/caught all/everything (subj.) is permitted (quote) said right?/didn't I?  
**“A while ago, I said ‘Anything goes so long as you don't get caught,’ right?”** (PL2)

**Kuwata:** まあ、見とれ。  
*Mā, mitore.*  
 (interj.) watch  
**“Well, just watch.”** (PL2)

- *sakihodo* is a more formal word for *sakki*, “a while ago.”
- *to* marks the content of a quote, and *itta* is the plain/abrupt past form of *iu* (“say”).
- *yaro* is Kansai dialect for the conjectural *darō* (or *darō*), here serving as a tag question, “right?/didn't I?”
- *mā* is a soft/gentle-sounding interjection/verbal “warm-up” that adapts to fit its context. At the beginning of an invitation or request it can be like “please”; in the case of a command like this, it can be thought of simply as softening the abruptness.
- *mitore* is a contraction of *mite-ore*, the abrupt command form of *mite-oru*, equivalent to *mite-iru* (“be watching”), from *miru* (“see/watch”). The abrupt command form of *mite-iru* is *mite-iro* (or *mite-ro* when contracted).

Kuruma ga erō konde-mashite nā.</i>  (apology) cars/traffic (subj.) terribly crowded/jammed (colloq.)</p> <p><b>“Sorry. The traffic was really bad, you know.”</b> (PL3)</p> <ul style="list-style-type: none"> <li>• <i>kite</i> is the <i>-te</i> form of <i>kuru</i> (“come”), and <i>kureru</i> after the <i>-te</i> form of another verb implies the action is done for the benefit of/as favor to the speaker/subject.</li> <li>• <i>shinpai</i> is the noun for “worry/anxiety/concern,” and <i>shinpai shite-imashita</i> is the PL3 past form of <i>shinpai shite-iru</i> (“is worrying/worried”), from <i>shinpai suru</i>, the verb “to worry/be concerned.” The preceding quotative <i>to</i> in this case marks the complete question <i>honma ni kite kureru no ka?</i> (“Will [you] really come?”) as the content of <i>shinpai shite-imashita</i>.</li> <li>• <i>n ya</i> is dialect for explanatory <i>n(o) da</i>, and <i>de</i> is for emphasis.</li> <li>• <i>sunmahen</i> is dialect for <i>sumimasen</i>, which can mean either “sorry/excuse me” or “thank you” depending on the context.</li> <li>• <i>kuruma</i> is literally “wheel(s),” and is used as a generic word for “car”; it can also refer to “traffic” in general, as in this case.</li> <li>• <i>erō</i> is Kansai dialect for <i>eraku</i>, the adverb form of the adjective <i>erai</i> (“eminent/important [person]”); it can be used colloquially as an emphaser like “very much/considerably/terribly.”</li> <li>• <i>konde-(i)mashite</i> is the PL3 <i>-te</i> form of <i>kande-iru</i> (“is crowded”), from <i>komu</i> (“become crowded”). The <i>-te</i> form is used because he is stating the cause/reason for their late arrival.</li> </ul>

19	<p><b>Takahashi:</b> どうぞ 改めてください。  <i>Dōzo aratamete kudasai.</i>  (emph.)/please please check/confirm  <b>“Please check them over.”</b> (PL3)</p> <p><b>On Note:</b> 約束 手形  <i>Yakusoku Tegata</i>  Promissory Note</p> <ul style="list-style-type: none"> <li>• <i>dōzo</i> is used to mean “please” when urging one’s listener to do some action (“please do [something]”).</li> <li>• <i>aratamete</i> is the <i>-te</i> form of <i>aratameru</i>, a somewhat formal word for “examine/check/confirm/look over/search.” <i>Kudasai</i> after the <i>-te</i> form of another verb makes a relatively polite request, “please (do).”</li> </ul>
20	<p><b>Kuwata:</b> ウン、これで けっこう。確かに いただきます。  <i>Un, kore de kekkō. Tashika ni itadakimasu.</i>  uh-huh this with fine/acceptable certainly/assuredly receive  <b>“Uh-huh, these will be fine. 21	<p><b>Takahashi:</b> ホナ、300万 お願いします。  <i>Hona, sanbyakuman onegai shimasu.</i>  in that case/then 3,000,000 (hon.)-request do  <b>“Then may I have the ¥3,000,000, please?”</b> (PL3)</p> <ul style="list-style-type: none"> <li>• <i>hona</i> is an extreme contraction/corruption of <i>sore nara</i> (“if it is so/in that case”): <i>sore nara</i> → <i>sonnara</i> → <i>honnara</i> → <i>honara</i> → <i>hona</i>. It’s not exclusive to, but more common in, Kansai dialect.</li> <li>• <i>onegai</i> means “request” and adding <i>suru/shimasu</i> turns it into a verb, “make a request/ask a favor.” Unless another subject is specified, it is understood to be the speaker who is making the request, so the expression essentially serves as a polite and formal “please.” The <i>o-</i> is an honorific prefix, but it’s always used when making a request, even when speaking informally.</li> </ul>
22	<p><b>Kuwata:</b> その前に 契約書 と 委任状 にサインしてください。  <i>Sono mae ni keiyakusho to ininjō ni sain shite kudasai.</i>  before that contract and power of attorney to signature please do  <b>“Before that, please sign this contract and power of attorney.”</b> (PL3)</p> <p><b>Takahashi:</b> わかりました。  <i>Wakarimashita.</i>  understood  <b>“Certainly.”</b> (PL3)</p> <ul style="list-style-type: none"> <li>• <i>sain shite</i> is the <i>-te</i> form of <i>sain suru</i>, meaning “sign/inscribe one’s signature” (<i>sain</i> is from English “sign,” but in this context means “signature”), and <i>kudasai</i> makes a polite request.</li> <li>• <i>wakarimashita</i> is the PL3 past form of <i>wakaru</i>, “come to know/understand.” The word is often used to show acceptance of what the other person has said/asked/ordered: “Yes/okay/I will do as you say” → “certainly.”</li> </ul>

# Want to Exchange Letters with Japanese Friends?

**ALC Press is looking for people of all nationalities who would like to exchange letters (in English) with Japanese. In Japan there are lots of people, young and old, who want to correspond with overseas friends.**

Specializing in Adult Communication  
**ALCPRESS INC.**  
 ALC Correspondence Club, c/o ALC Press, Inc.  
 2-54-12 Eitoku, Suginami-ku Tokyo 168 Japan

Tokyo-based publisher, ALC Press, Inc. have launched the ALC Correspondence Club - a penpal introduction service - in order to promote international exchange and friendship among individuals in Japan and other countries. If you are interested in participating in this exciting program, please complete this form and mail it to our headquarters in Tokyo.

You will become a member of the ALC Correspondence Club upon our receipt of your registration form. Registration is free, and valid for six months. During the six-month registration period, we will match you with Japanese penpals with the

help of the information you have provided. The Japanese penpals will then write to you. It is

preferred that you write in English, but Japanese is acceptable as well.

## Use Your PC to Master Japanese and Chinese

Enjoy learning Asian languages with *Smart Characters for Students™* word processor and vocabulary tutor. Unlike other word processors, Smart Characters combines reading, writing, translating, and vocabulary study tools to assist non-native speakers who may have only minimal foreign language skills. The result is an effective tool for word processing and foreign language study.

- Displays *furigana*, *bpmf*, and *pinyin* in a variety of styles to help you pronounce unknown or forgotten characters.
- The built-in vocabulary tutor teaches *kanji* and *hanzi* rapidly and effectively so you can read without notes. Create your own lessons and contribute to or select from the User's Group library, including each month's vocabulary from *Mangajin* magazine.
- Use the word processor to display or create sophisticated interactive hypertext lessons to learn or teach technical topics such as grammar and usage.
- Write and print any character; over 7700 are included.
- Handy on-line hypertext references and dictionaries include English notes to speed reading and writing. Optional dictionaries may be added and instantly accessed. The optional radical and stroke dictionary makes a particularly handy *rapid reading tool*.
- Version 2.5 provides better typography, more dictionary options, and is easier to use. Just \$99.95. Call or write for a free brochure.

## The Infamous Jack Seward at his Uncensored Best

Available in the US only through Mangajin

Since 1940 Jack Seward has been involved with Japan as student, resident, teacher and author of 43 books. Unmoved by threats of legal action or moral reproach, Seward lays bare the sordid truth about his writing career, sexual misadventures, extreme political views and other offbeat experiences in *Seward's Follies*.

140 pages • softcover • \$12, Mangajin subscriber price: \$11

Erotic manga are popular with all kinds of people in Japan—young, old, male and female. In *Japanese Eroticism*, Seward exposes the seamy world of Japanese *eromanga*, presenting four erotic stories, with translations and commentary. Indulge your prurient interests under the guise of language study.

The person waiting for Tokiro Ehara, newly appointed English teacher at famed Mitsuba Girls High School (and, incidentally, still a virgin), is Miyako Hase whose pure and innocent face hides her "playful" nature.

When he accidentally finds out her secret, Tokiro marshals his pride as a teacher and plots to make Miyako a proper student—but gets wrapped up in her cute charm instead.

# Interesting Additions

## Seward's Follies

by Jack Seward

Since 1940 Jack Seward has been involved with Japan as a student, resident, teacher and author of 43 books. Unmoved by threats of legal action, he has finally agreed to lay bare the truth about his sexual misadventures and other offbeat experiences. This book is sure to be controversial, but if you like Jack Seward, you'll love the book. Available only through *Mangajin*. 140 pages, softcover. **\$12.00, subscriber price \$11.00**

## Japanese Eroticism

by Jack Seward

For adults only! Erotic manga are popular with all kinds of people in Japan—young, old, male, female. In this book Jack Seward presents four *ero-manga* stories, with translations and commentary. Available in the US only through *Mangajin*. 168 pages, softcover. **\$12.00, subscriber price \$11.00**

## Hiragana Times

A monthly magazine written by and for Japan's international community, it has news, trivia, interviews, opinions, reader polls, crosswords, and personals. Everything—including ads—is presented in both English and Japanese. All Kanji have furigana written above to facilitate reading. 80 pages. **Single copy of latest issue: \$10.00, subscriber price \$9.00**

## Mangajin's Basic Japanese Through Comics

A compilation of the first 24 Basic Japanese lessons from *Mangajin*, it's the next best thing to a complete set of back issues! The lessons cover a wide array of expressions and illustrate usage in cultural context. Beginners will find the concepts and explanations easy to understand, while pros can expand their linguistic horizons. 160 pages, softcover. **\$14.95**

## The Essence of Modern Haiku

Breaking free from centuries of poetry limited to nature themes, Seishi Yamaguchi added modern touches while retaining the elegant beauty of the classics. Presented in *Mangajin* style, this collection has appeal for students of Japanese language & culture as well as haiku lovers everywhere. 368 pages. Softcover **\$19.95**

# Kid Stuff

## Japanese Word Book

Illustrated by Yuko Green

A picture dictionary with a Japanese feel—characters wear kimono, eat Japanese foods and walk in Japanese gardens. The 200 words and phrases are labeled in romaji and kanji/kana and illustrated in black and white. E-J, J-E glossaries are included in the back for reference. Comes with a cassette tape for pronunciation practice. 106 pages, softcover. **\$16, subscriber price \$14**

## Nihongo Daisuki! Japanese for Children Through Games and Songs

by Susan H. Hirate and Noriko Kawaura

A teacher's manual designed for use in elementary school classrooms, complete with photo-ready materials. The drawings aren't top-notch, but the activity-based curriculum, designed by professional language teachers, will be a relief to teachers struggling for ideas. 194 pages, softcover. **\$19, subscriber price \$16**

## Let's Learn Japanese Picture Dictionary

Illustrated by Marlene Goodman

A delightful picture book of over 1,500 words, each page contains dozens of color drawings with labels written in English, romaji and kanji/kana. A wide range of subjects from "At the Doctor's Office" to prehistoric times and space travel. J-E, E-J glossaries are included in the back for reference. 80 pages, hardcover. **\$12, subscriber price \$10**

# Japanese Manga

## Naniwa Kin'yūdō

by *Aoki Yuji*. Given the content of the stories, the title of this series could be rendered as "The Way of the Osaka Loan Shark." Since its appearance in 1990, *Naniwa* has been a hit, largely due to its subject matter (the unethical dealings of an Osaka loan company), the gritty Osaka dialect used by many characters, and the rough but oddly detailed style of drawing. Adult situations, may not be suitable for all audiences. Five volume set in the original Japanese, no translations or notes. **\$40.00, subscriber price \$35.00**

## Kachō Shima Kōsaku

by *Hirokane Kenshi*. Japan's most famous salaryman is a single, fortyish, middle-manager working at a giant consumer electronics company, where he battles for truth, profits and the Japanese Way. *Mangajin* readers will recognize a similarity to *Ningen Kōsaten*, also drawn by Hirokane. Adult situations, may not be suitable for all audiences. Five volume set in the original Japanese, no translations or notes. **\$40.00, subscriber price \$35.00**

## OL Shinkaron

by *Akizuki Risu*. This series is centered on the lives of "OLs," Office Ladies, Japan's female counterparts to salarymen. The stories take place in the same office, and the same regular characters appear, but names are not generally used. A long-time favorite with *Mangajin* readers, OL Shinkaron first showed up in *Mangajin* #4. Three volume set in the original Japanese, no translations or notes. **\$30.00, subscriber price \$25.00**

## What's Michael?

by *Makoto Kobayashi*. He's Back! *Mangajin*'s favorite cat Michael has been a constant companion since our first issue. He's been the pet of a young woman, a married couple, and a gangster, to name a few, and some of his adventures take place strictly in the world of cats who dress and act like humans. Easy to read, *What's Michael* is particularly popular with beginners of Japanese. Five volume set in the original Japanese, no translations or notes. **\$40.00, subscriber price \$35.00**

## Dai Tōkyō Binbō Seikatsu Manyuaru

by *Maekawa Tsukasa*. The hero of this series is Kōsuke, a young college grad who chooses to live a no-frills life. He works only part-time jobs and spends his time enjoying the simple pleasures of life, especially in finding innovative ways of living on the cheap. A regular since *Mangajin* #3. Five volume set in the original Japanese, no translations or notes. **\$40.00, subscriber price \$35.00**

## Obatarian

by *Hotta Katsuhiko*. Obatarian first appeared in *Mangajin* #4. Her selfishness, suspicious nature and quick temper have found their way back into our pages again and again. You can't help but like this middle-aged terror. Five volume set in the original Japanese, no translations or notes. **\$31.50, subscriber price \$28.00**

## O-jama Shimasu

by *Imazeki Shin*. Known to its fans as the "sheep-counting manga," the offbeat humor in this series is somewhat reminiscent of *The Far Side*. Selections appear in this issue of *Mangajin*. Three volume set in the original Japanese, no translations or notes. **\$19.50, subscriber price \$17.50**

# Books

**Japanese Jive**, by Caroline McKeldin  
English is widely used in Japanese product names and packaging, often with baffling results. McKeldin presents dozens of hilarious examples of real products bearing unreal English names, accompanied by tongue-in-cheek "analysis." 80 pages, softcover. **\$9.95, subscriber price \$8.95**

**Shosha-man**, by Arai Shinya, translation by Cheiko Mulhem  
Intended for a Japanese audience, this novel gives an honest and insightful look into the life of an employee of a *shōsha* (large-scale Japanese trading company). The plot revolves around the buyout of an American firm by the Japanese, and one man's struggle to do what is best for his company and himself. 224 pages, softcover. **\$13.00, subscriber price \$12.50**

**Komikku Nichi-Bei Masatsu: Waratte bakari wa iraramasan:**  
"Comic Japan-US Friction: Not Just a Laughing Matter," Ono Kōsei, translator  
*Not Just a Laughing Matter* presents 100 political cartoons on Japan from newspapers and magazines around the world. Everything from the contents to the notes is presented in English and Japanese (no language notes or grammar explanations, though). Priority was given to those comics that evoked a chuckle. Reviewed in *Mangajin* #28. **Price \$17.00, subscriber price \$15.00**

**In the Realm of a Dying Emperor**, by Norma Field  
Set in the final year of the Showa Emperor's fatal illness, *Realm* examines the dark side of Japanese nationalism. By giving detailed portraits of three people who have taken unpopular stands against a government-endorsed nationalist symbol, a nation is revealed that is far more diverse than most people realize. 273 pages, softcover. **\$11.50, subscriber price \$11.00**

**Japan, Inc.**, by Ishinomori Shōtarō  
English translation of the Japanese educational manga *Nihon Keizai Nyūmon*. The story involves fictional Mitsutomo Trading Co., the kind of company that has presided over Japan's economic expansion during the past century, providing insight into how the Japanese view business and their political economy. 312 pages, softcover. **\$13.00, subscriber price \$12.50**

**Slugging it Out in Japan**, by Warren Cromartie w/Robert Whiting  
This Montreal Expo turned Tokyo Giant gripes about everything from soulless cities to gutless players; but by the end of the story admits his respect for Japan. Reviewed in *Mangajin* #14. 277 pages, hardcover. **\$18.50, subscriber price \$17.50**

**America and the Four Japans**, by Frederik L. Schodt  
A remarkably thoughtful book about the ever-changing relationship between Japan and the US. Drawing on history, cultural commentary, and opinion on both sides of the Pacific, it portrays two nations in conflict yet increasingly connected. Is Japan a friend, a rival, a role model, or a mirror? What does Japan *really* mean to America? Reviewed in *Mangajin* #32, 200 pages, softcover. **\$10.95, subscriber price \$8.95**

**Manga! Manga!** by Frederik L. Schodt  
Tracing manga from its 6th-century roots through its function as propaganda during the war to the billion-yen industry of the present, including more than 200 illustrations and translated sections of four classic manga works. 260 pages, softcover. **\$18.50, subscriber price \$17.00**

# TSUNAMI MT *for Windows*

## English-to-Japanese Translation Software

Enter text in the English window, or Drag & Drop from your word processor or the File Manager. Press the *Trans* button—instant Japanese!

Introducing *Tsunami* Machine Translator. With just *Tsunami* MT and MS Windows™, you can translate all of your English documents into Japanese at the click of a button.

### The Good, the Bad, and the Ugly

*Tsunami* MT is written for all sorts of people. If your knowledge of Japanese goes as far as Sony and sushi, click the "fast" translation button and let *Tsunami* MT take care of the rest. For more advanced users *Tsunami* MT offers two user-interaction modes to allow user guidance and feedback during the translation process.

### Japanese Word Processing

Professional translators and students of Japanese will appreciate *Tsunami* MT's full-featured Japanese text editor. With a standard Front End Processor (FEP), two kana entry tables, two laser printer-ready fonts, and its new kanji input system, *Tsunami* MT has editing features better than many Japanese word processors.

### *Tsunami* MT is Smart...

*Tsunami* MT gives you a 60,000 word main system dictionary and unlimited user dictionaries. Translation speed is 500 words per minute. Translation accuracy is 90 percent. *Tsunami* MT was developed at the Artificial Intelligence Laboratory in Tokyo.

### Independent and a Team Player

*Tsunami* MT gives you instant access to Japanese without requiring DOS/V, Windows 3.1J or anything else besides your PC running Windows 3.1. *Tsunami* MT even helps you link to the hottest new Windows applications with OLE 2.0 so you can drag and drop text from your word processor directly to *Tsunami* MT and back. If that's not enough, try the unique "File Import" button and pull a document directly from the File Manager. *Tsunami* MT reads text files from any word processor.
